

## Knife Fighting

### Knife Palming with the Ice Pick grip

The ice pick grip also permits you to palm your knife to your hand. Knife palming is a strategic method of concealing your knife behind your forearm during the precontact stage of knife fighting.

Knife palming is probably one of the most deceptive forms of knife concealment and can surprise even the most seasoned knife fighter. Therefore, when confronted by a potential adversary, always be aware of his hands. Remember, if you can't see the opponent's fingertips, beware – he could also be palming a knife.

Figure 10-10 The deceptive knife palming technique.

## Chapter 10 Knife Fighting Grips and Ranges

The knife fighting grips are not just limited to knife fighting. They have numerous weapon applications, including the applications to hand guns.

When using the ice pick grips, don't make the common mistake of holding the knife with the cutting edge facing away from the adversary.
