Knowledge Higher Worlds Its Attainment:

Knowledge of the Higher Worlds and Its Attainment Rudolf Steiner, 2006-11 Opening address Stuttgart August 20 1919 14 lectures Stuttgart August 21 September 5 1919 CW 293 2 lectures Berlin March 15 and 17 1917 CW 66 Although we can physically see children only after their birth we need to be aware that birth is also a continuation We do not want to look only at what the human being experiences after death that is at the spiritual continuation of the physical We want to be aware that physical existence is a continuation of what higher beings have done without our assistance Our form of educating can have the correct attitude only when we are aware that our work with young people is a continuation of what higher beings have done before birth Rudolf Steiner This course on education contains some of the most remarkable and significant lectures ever given by Rudolf Steiner Because these lectures were given to teachers however they have suffered the misconception that they are useful only to teachers Any teacher who wants to teach in a way that encompasses the whole child certainly needs a functional understanding of what Steiner presents here but these lectures will also greatly benefit parents psychologists counselors or anyone else involved with child development Steiner gives his most concise and detailed account of human nature in these lectures which are absolutely essential for anyone who wants a deeper understanding of Steiner's spiritual science Those who are willing to work through this work will discover here a new powerful convincing and profoundly phenomenological anthropology of human spiritual psychology In these lectures Steiner laid out for the first time the principles that form the basis for renewing the art of teaching The Foundations of Human Experience is probably the most important text for studying and understanding the human developmental and psychological basis of Waldorf educational principles Translated from the German editions Allgemeine Menschenkunde als Grundlage der Pädagogik GA 239 appendix from Geist und Stoff Leben und Tod GA 66 An earlier translation was titled Study of Man

Knowledge of the Higher Worlds and Its Attainment Rudolf Joseph Lorenz Steiner, 1932-01-01 There slumber in every human being faculties by means

of which he can acquire for himself a knowledge of higher worlds Mystics Gnostics Theosophists all speak of a world of soul and spirit which for them is just as real as the world we see with our physical eyes and touch with our physical hands At every moment the listener may say to himself that of which they speak I too can learn if I develop within myself certain powers which today still slumber within me There remains only one question how to set to work to develop such faculties For this purpose they only can give advice who already possess such powers As long as the human race has existed there has always been a method of training in the course of which individuals possessing these higher faculties gave instruction to others who were in search of them Such a training is called occult esoteric training and the instruction received therefrom is called occult esoteric teaching or spiritual science This designation naturally awakens misunderstanding The one who hears it may very easily be misled into the belief that this training is the concern of a special privileged class withholding its knowledge arbitrarily from its fellow creatures He may even think that nothing of real importance lies behind such knowledge for if it were a true knowledge he is tempted to think there would be no need of making a secret of it it might be publicly imparted and its advantages made accessible to all Those who have been initiated into the nature of this higher knowledge are not in the least surprised that the uninitiated should so think for the secret of initiation can only be understood by those who have to a certain degree experienced this initiation into the higher knowledge of existence The question may be raised how then under these circumstances are the uninitiated to develop any human interest in this so called esoteric knowledge How and why are they to seek for something of whose nature they can form no idea Such a question is based upon an entirely erroneous conception of the real nature of esoteric knowledge There is in truth no difference between esoteric knowledge and all the rest of man's knowledge and proficiency This esoteric knowledge is no more of a secret for the average human being than writing is a secret for those who have never learned it And just as all can learn to write who choose the correct method so too can all who seek the right way become esoteric students and even teachers In one respect only do the conditions here differ from those that apply to external knowledge and proficiency The possibility of acquiring the art of writing may be withheld from someone through poverty or through the conditions of civilization into which he is born but for the attainment of knowledge and proficiency in the higher worlds there is no obstacle for those who earnestly seek them Many believe that they must seek at one place or another the masters of higher knowledge in order to receive enlightenment Now in the first place whoever strives earnestly after higher knowledge will shun no exertion and fear no obstacle in his search for an initiate who can lead him to the higher knowledge of the world On the other hand everyone may be certain that initiation will find him under all circumstances if he gives proof of an earnest and worthy endeavor to attain this knowledge It is a natural law among all initiates to withhold from no man the knowledge that is due him but there is an equally natural law which lays down that no word of esoteric knowledge shall be imparted to anyone not qualified to receive it And the more strictly he observes these laws the more perfect is an initiate The bond of

union embracing all initiates is spiritual and not external but the two laws here mentioned form as it were strong clasps by which the component parts of this bond are held together You may live in intimate friendship with an initiate and yet a gap severs you from his essential self so long as you have not become an initiate yourself You may enjoy in the fullest sense the heart the love of an initiate yet he will only confide his knowledge to you when you are ripe for it You may flatter him you may torture him nothing can induce him to betray anything to you as long as you at the present stage of your evolution are not competent to receive it into your soul in the right way The methods by which a student is prepared for the reception of higher knowledge are minutely prescribed The direction he is to take is traced with unfading everlasting letters in the worlds of the spirit where the initiates guard the higher secrets In ancient times anterior to our history the temples of the spirit were also outwardly visible today because our life has become so unspiritual they are not to be found in the world visible to external sight yet they are present spiritually everywhere and all who seek may find them Only within his own soul can a man find the means to unseal the lips of an initiate He must develop within himself certain faculties to a definite degree and then the highest treasures of the spirit can become his own He must begin with a certain fundamental attitude of soul In spiritual science this fundamental attitude is called the path of veneration of devotion to truth and knowledge Without this attitude no one can become a student The disposition shown in their childhood by subsequent students of higher knowledge is well known to the experienced in these matters There are children who look up with religious awe to those whom they venerate For such people they have a respect which forbids them even in the deepest recess of their heart to harbor any thought of criticism or opposition Such children grow up into young men and women who feel happy when they are able to look up to anything that fills them with veneration From the ranks of such children are recruited many students of higher knowledge Have you ever paused outside the door of some venerated person and have you on this your first visit felt a religious awe as you pressed on the handle to enter the room which for you is a holy place If so a feeling has been manifested within you which may be the germ of your future adherence to the path of knowledge It is a blessing for every human being in process of development to have such feelings upon which to build Only it must not be thought that this disposition leads to submissiveness and slavery What was once a childlike veneration for persons becomes later a veneration for truth and knowledge

Higher Worlds and Its Attainment Rudolf Steiner, 2016-04-24 The quintessential guide for the spiritual seeker from the deeply gifted mystic In human life joy is usually something one has not deserved through previous actions When we investigate karma by occult means we always discover that in most cases joy has not been earned and we should accept it gratefully as sent to us by the gods as a gift of the gods and to say to ourselves The joy which comes to meet us today ought to kindle in us the will to work in such a way as to take into ourselves the forces streaming to us through this joy and to apply these usefully We must look upon joy as a sort of prepayment on account for the future Love starts when we push aside our ego and make room for someone else If we do not believe within ourselves this deeply rooted feeling that there is something higher than ourselves we shall never find the strength to evolve into something higher May my soul bloom in love for all existence You will not be good teachers if you focus only on what you do and not upon who you are PREFACE TO THE EDITION OF MAY 1918 PREFACE TO THE SIXTH EDITION PREFACE TO THE THIRD EDITION I HOW IS KNOWLEDGE OF THE HIGHER WORLDS ATTAINED II THE STAGES OF INITIATION III SOME PRACTICAL ASPECTS IV THE CONDITIONS OF ESOTERIC TRAINING V SOME RESULTS OF INITIATION VI THE TRANSFORMATION OF DREAM LIFE VII THE CONTINUITY OF CONSCIOUSNESS VIII THE SPLITTING OF THE HUMAN PERSONALITY DURING SPIRITUAL TRAINING IX THE GUARDIAN OF THE THRESHOLD X LIFE AND DEATH THE GREATER GUARDIAN OF THE THRESHOLD APPENDIX

Knowledge of the Higher Worlds and Its Attainment Rudolf Steiner, 19?? Knowledge of the Higher Worlds and Its Attainment. (Translation by G. Metaxa. Revised by M. Cotterell. Further Revised by J. Davy.) Rudolf Steiner, Mabel M. COTTERELL, George METAXA, 1963 **Time of Decision with Rudolf Steiner** Friedrich Hiebel, 1989 This fascinating recollection of the early days of the Anthroposophical Society offers a unique perspective on Rudolf Steiner's work and his relationship to his students Of particular interest to our readers will be the chapters on the Christmas Conference of 1923 for

the foundation of the Anthroposophical Society Hiebel attended the meeting and his lively descriptions and warm style let those solemn events rise up again in our souls He recreates the solemn sacred mood of the laying of the Foundation Stone and provides insights into the structure and meaning of the Foundation Stone verses Biography: Freedom and Destiny Rudolf Steiner, 2013-04-03 The path of an individual human life our biography is something of a mystery Despite the abundance of published biographies and autobiographies of celebrities and historical figures the scientific study of human biography remains in its infancy with little understanding of the inherent laws in the path of an individual's life Yet as Rudolf Steiner shows here every biography regardless of the individual's fame perceived importance or outer success is ruled by archetypal influences patterns and laws This broad ranging anthology addresses some critical and as yet unanswered questions What effects do education and in particular contrasting education methods have on later life How do the various periods of life relate to each other Do the effects of events on the individual become evident immediately or is their true impact delayed perhaps by decades To what extent can an individual shape the stages of his or her biography How much freedom of choice do we have and how much of life is predetermined Out of the higher knowledge Rudolf Steiner acquired from his spiritual research he described the human individuality as a being with a continuing existence before birth and beyond death This eternal being experiences many varied conditions and situations the effects of which are observable in our biography This book addresses these and other issues such as freedom and destiny the effects of heredity illness and the impact of education offering answers based on a profound knowledge of the human being **Anthroposophy and the Philosophy of Freedom** Sergei O. Prokofieff, 2009 I asked Rudolf Steiner What will remain of your work thousands of years from now He replied Nothing but The Philosophy of Freedom But everything else is contained in it If one realizes the act of freedom described there one can discover the whole content of Anthroposophy Walter Johannes Stein Some people's path to Anthroposophy leads them directly to Rudolf Steiner's early work Intuitive Thinking as a Spiritual Path A Philosophy of Freedom which becomes the philosophical basis for further exploration Steiner referred to this as a safe approach However the destiny of many leads them directly to Anthroposophy itself perhaps through one of its practical initiatives such as Waldorf education or biodynamics sometimes making it difficult to relate to the cognitive basis of Anthroposophy In this unique study Prokofieff offers a fresh approach to Steiner's crucial book Intuitive Thinking as a Spiritual Path He shows why the book is so important to Anthroposophy as the work in which Steiner lays a foundation for his method of spiritual research In Steiner's own words One who is willing can indeed find the basic principles of Anthroposophy in my Philosophy of Freedom Prokofieff discusses the Christian nature of the anthroposophic means of cognition and how it is integral to freedom and love This in turn reveals the deeply Christian roots of Intuitive Thinking as a Spiritual Path and its importance for modern Christian esoteric work In considering its multifaceted cosmic and human dimension Prokofieff discusses Intuitive Thinking as a Spiritual Path in relation to the mystery of the Resurrection the work of the hierarchies the being
