Children of Laughter and the Re-Creation of Humanity Samuel J. Tedder,2020-07-02 Paul s passionate Letter to the Galatians has occasioned various perspectives old new radical new apocalyptic etc for explaining Paul s defense of the truth of the gospel in it This book makes an audacious claim that the allegorical passage of 4 21 5 1 is the best vantage point for configuring Paul s theological vision and logic in the letter

Offering a fresh approach for understanding Paul's allegorical practice it demonstrates how both the Abraham narrative and the book of Isaiah function as a formative matrix for Paul's theology. With an in-depth analysis of these scriptural texts Paul's two identifications for believers in Christ belonging to the Jerusalem above and being children of promise in the pattern of Isaac receive new clarity and precision. The investigative journey in this book discusses key concepts and texts from Galatians and addresses questions concerning the shape of Paul's retelling of Israel's story in relation to Jews and Gentiles. The result is a well-grounded interpretation of Paul's conception of the gospel that made him new and continues to bring about new creation in our world. *Wandering in Darkness* Eleonore Stump, 2012-09-13

Only the most naïve or tendentious among us would deny the extent and intensity of suffering in the world. Can one hold consistently with the common view of suffering in the world that there is an omniscient omnipotent perfectly good God? This book argues that one can. *Wandering in Darkness* first presents the moral psychology and value theory within which one typical traditional theodicy, namely that of Thomas Aquinas, is embedded. It explicates Aquinas's account of the good for human beings, including the nature of love and union among persons. Eleonore Stump also makes use of developments in neurobiology and developmental psychology to illuminate the nature of such union. Stump then turns to an examination of narratives. In a methodological section focused on epistemological issues, the book uses recent research involving autism spectrum disorder to argue that some philosophical problems are best considered in the context of narratives. Using the methodology argued for, the book gives detailed innovative exegeses of the stories of Job, Samson, Abraham and Isaac, and Mary of Bethany. In the context of these stories and against the backdrop of Aquinas's other views, Stump presents Aquinas's own theodicy and shows that Aquinas's theodicy gives a powerful explanation for God's allowing suffering. She concludes by arguing that this explanation constitutes a consistent and cogent defense for the problem of suffering.

Interludes and Irony in the Ancestral Narrative Jonathan A. Kruschwitz, 2020-12-18 The stories of Hagar, Dinah, and Tamar stand out as strangers in the ancestral narrative. They deviate from the main plot and draw attention to the interests and fates of characters who are not a part of the ancestral family. Readers have traditionally domesticated these strange stories. They have made them familiar, all about the ancestral family. Thus Hagar's story becomes a drama of deselection. Shechem and the Hivites become emblematic for ancestral conflict with the people of the land, and Tamar becomes a lens by which to read providence in the story of Joseph. This study resurrects the question of these stories' strangeness. Rather than allow the ancestral narrative to determine their significance, it attends to each interlude's particularity and detects ironic gestures made toward the ancestral narrative. These stories contain within them the potential to defamiliarize key themes of ancestral identity: the ancestral/divine relationship, ancestral relations to the land and its inhabitants, and ancestral self-identity. Perhaps the ancestral family are not the only privileged partners of God, the only heirs to the land, or the only bloodline fit to bear the next generation.
