puts similar claims to test in relation to highest national jurisdictions supreme and constitutional courts in Europe today How often and why do judges choose to draw inspiration from foreign materials in solving domestic cases The book addresses these questions from both an empirical and a theoretical angle Empirically the genuine use of comparative arguments by national highest courts in five European jurisdictions is examined England and Wales France Germany the Czech Republic and Slovakia On the basis of comparative discussion of the practice and its national theoretical underpinning in these and partially also in other European systems an overreaching theoretical framework for the current judicial use of comparative arguments is developed Drawing on the author's own past judicial experience in a national supreme court this book is a critical account of judicial engagement with foreign authority in Europe today The sober middle ground inductively conceptualized and presented in this book provides solid jurisprudential foundations for the ongoing use of comparative arguments by courts as well as its further scholarly discussion

Infinite Creator Drive K J Gordon, 2015-06-01 Infinite Creator Drive Is way beyond a great read It's an epic journey The Story makes for an awesome travelling companion for those surfers and holiday makers requiring a great adventure of the mind and spirit K J Gordon has taken the beauty of Australia the World and the Universe and presented not only a great read it propels a world embracing free energy And yes there are consequences of Biblical proportions The story has several plots some shallow and funny some deep and thought provoking Infinite Creator Drive is an interesting space journey of discovery As well as being thoroughly entertaining L Haydn Gully June 2015 REVIEW Infinite Creator Drive is a revealing romp through space There is an abundance of plausible technology and future incite from the author K J GORDON And there are aspects which really make the reader stop and think The concept dealing with superior alien life is very original and shows a depth in marine science and biochemistry which must remain un discussed as not to spoil the surprise and or shock The addition of DNA characters of legend add authentic aspects to the life discussion as

it flows through the entire story line And indeed not without a twist in the tail The story of Infinite Creator Drive has a depth of unusual twists and is not so much pitched as sprayed across the imagination The reader needs to take stock of relative time as the journey hurtles through existing science on its way to find a new humanity One needs the seatbelts well tightened for this journey as well as safety gear for the powerful riding of surfing waves in Oz and on an amazing planet called Endev The future tech of DNA manufacture rolling through the subplots is rather compelling as we are just discovering these future concepts for real And one wonders at the authors incite Here is a new science of science fiction written in the non publishable genre of Aussie Fly Boys meet the most famous man on the planet Science Fiction The mind boggles at the ploy It will never work The fly boys being surfer bums with attitude while the most famous man of his time is an aboriginal man from Alice Springs He invents anti gravity And yes the love interest would be worth meeting for real as her unordinary charm captivates in unusual ways Lastly there lies an interesting undercurrent of mental instability and aspergers twinkling lightly through the sub plots as well The chapter on emotional balance as aspects of understanding Karma will stay with the reader long after they have shed a tear as the end draws near Pyramid meditation will be required Infinite Creator Drive is ironically well ahead of its time past present and future And the concept of who or what the Infinite Creator Drive is will check the reader s thought processors And very lastly the imagery will test the horizons of those prepared to take a journey that pumps the heart in its pace and yet brings a tear in emotive depth Definitely too long for a movie but what a ride that would

Educational Implications of Artistic Practice Luis S. Villacañas-de-Castro, Miguel Corella-Lacasa, 2025-09-26 This collection draws on a range of frameworks from the fields of aesthetics philosophy and political theory to discuss how art has been characterized across the humanities It derives consequences for educational institutions pedagogy and teachers of

specific curricular areas The book addresses issues such as how art has been defined what its affordances are for educators whether artistic practice is an intrinsically educational process whether museums and galleries are educational institutions and conversely whether schools may also qualify as artistic laboratories Through these and more questions the book approaches the education art nexus from both sides of the relationship with chapters that either look at education through art or at art through education The contributors belong to education aesthetic and arts university departments and report on a variety of interdisciplinary research projects As a result the volume provides both theoretical insights into the distinct means and purposes of art and lively illustrations of the affordances that art holds for educators in different institutions and contexts Although rooted for the most part in the Spanish speaking world the volume embraces a glocal perspective whereby contemporary tendencies and discussions are embodied and transmitted through rich and textured qualitative case studies

J. Popma, 2021-10-31 Gospel and History picks up where Scriptural Reflections on History left off but with the added benefit of some 30 years experience of life in church and society between them indeed the entire post war period of the recovering 1950s and the revolutionary 1960s A lot of water had gone under the bridge and this was also true of Reformational philosophy Theology in many respects was turning liberal and Popma spends a great deal of time refuting the rationale behind that turn the supposed need to keep up with the times to keep in step with modern man For its part true historical understanding must take the Biblical narrative into account and more than that it must take it seriously For example We by virtue of our very humanity are required to make the personal acquaintance of the first human

pair inexperienced and innocent as they were That is a difficult assignment but it is not impossible so long as we are prepared to enter a relationship that makes us as it were contemporaries of Adam and Eve Modern man so called Is he really that modern Or is that modernity a mere excuse to back out of his simple human task modern man cannot accept this that is to say he refuses to accept this That has been the case throughout the ages It s not at all modern p 167 It is exceedingly foolish to aver that this as such mythical modern man cannot accept the ascension of Christ The unanswered and for now unanswerable questions relative to Christ s ascension into heaven existed already for the apostles who had witnessed the ascension with their own eyes Our historicity does not differ all that much from that of people who lived two thousand years ago Babbling about modern man can call up pseudo problems whereby the real difficulties are hidden from view p 186 Modern man is supposed to have discovered with the cultural means of modern times that viewed from a modern perspective demons do not exist although they did exist for the apostles because their cultural pattern left lots of room for the existence of demons cosmic powers spiritual forces of evil A historicism of this kind brings with it the need for a general revision and invalidation of the biblical message p 187 In opposition to this a Scriptural gospel oriented view of history must take these data into account as hard facts the title of another of Popma s scriptural explorations and when that is done we arrive at a new vision of history one which stretches back even before the material creation to that of angels and demons and takes the entirety of history into account from that point onward precisely as salvation history The action of God in history is a series of judgments which seem ineffectual but which in actuality bring forth a new world revealed at the Last Judgment And history extends onward into the future beyond that final judgment For there is no real end to history except for those cast into outer darkness who as such are no longer allowed to participate in it History was already there when God through the Mother Promise declared history to be salvation history history will still be there when salvation will have been accomplished after Judgment Day and the resurrection of the flesh history will continue one might even say then history starts in earnest in the second and last Paradise which will far eclipse the first in glory The cultural mandate will go on its field of activity will be immense p 83 All in all the meaning of history consists in this that God wants to unite all things in Christ things in heaven and things on earth p 98 In Popma s hands history becomes a far greater thing than we can even imagine and rightly so
