Knowledge Driven Profit Improvement Implementing Assessment Feedback Using Pdkaction Theory:

Knowledge-Driven Profit Improvement Monte Lee Matthews, 2019-07-23 This book presents an innovative and radically logical way of thinking about organizational knowledge and competition that centers on discipline integration and focus. By tapping into the previously unrealized strengths that lie in all companies, the author suggests that it is possible for companies to move beyond informational chaos to create focused and enticing new opportunities. The 12 step method presented in the first five chapters shows you how to take information from feedback from assessments, surveys, and audits, convert it into usable knowledge, and get bottom line improvements. The strategy expands the plan-do-check-act PDCA model into a Plan-Do-Knowledge-Act PDKA process. The case studies provided reinforce the principles and the theory behind them. Significant challenges face any organization intent on becoming world class by managing knowledge effectively. They can be classified into four types, making use of your information by integrating it, organizing the different forms of information into a manageable framework, focusing equal attention on your strengths and your weaknesses, developing decision making criteria based on key company drivers. The 12 steps outlined in *Knowledge Driven Profit Improvement Implementing Assessment Feedback Using PDKAction Theory* will show you how to make your company into a world class organization. Features: Assists companies in becoming more competitive. Serves as a guide for companies to use when taking their feedback from assessments, surveys, and audits, then integrating the feedback and prioritizing it so that financial and operational improvements can be made. Allows companies to use the information they have been accruing for years. Helps companies establish better business priorities for the purpose of better planning. Demonstrates the significance of improvements made by using the information gained from assessments.
