PENPALS *for Handwriting*

During this year, correct letter formation should become an automatic habit. Don't encourage your child to write too small or too quickly. Trying to enforce small handwriting too soon can lead to a very cramped style, which is then difficult to make fluent. At the very end of this year, children will begin to join some pairs of letters within a word.

As a reminder, correct letter formation for lower-case letters is as follows. The arrows show the direction of your child's pencil:

a b c d e f g h i j k l m n
o p q r s t u v w x y z

Capital letters are formed as follows:

A B C D E F G H I J K L M N
P Q R S T U V W X Y Z

Letter families

Your child will still be thinking about the four letter families (similar letter shapes grouped together to help children form letters consistently).

Long-legged giraffe

The Complete Guide to Handwriting Wendy Byrd, 2021-09-07 *The Complete Guide to Handwriting* was written by an elementary school teacher to better help parents teach handwriting with a fun and efficient approach at home. This book includes step by step instructions for writing each letter as well as visual aids. There are also tips and tricks to help your learner succeed. This is not your average handwriting practice book. Most books just work through the letters A-Z teaching both uppercase and lowercase together. Did you know letters made with diagonal lines can be the most difficult for children to learn. In *The Complete Guide to Handwriting* we will start with uppercase letters first and work from the easiest letters to write to the more difficult. Each line has a corresponding colored picture and line to better aid with letter formation. This handwriting book is fun and engaging.
