Hanji Unfurled AIMEE. LEE, 2021-04-13 New Hanji, 2015 Exhibition at the Villa Terrace Decorative Arts Museum in Milwaukee celebrating a remarkable tradition of Korean papermaking and exquisite paper arts the exhibition brings together three artists from Korea Haemija Kim Yang Bae Jean Kumgang Seunim and five contemporary Milwaukee artists Marna Brauner Christiane Grauert Jessica Meuninck Ganger Nirmal Raja Rina Yoon for a visual conversation which honors and innovates with Korean handmade paper hanji a material known to survive for over one thousand years **Papermaking in Korea** Asao Shimura, 1977 **Traditional Korean Papermaking** Hyejung Yum, 2008 Abstract This study investigated the history of traditional Korean papermaking within its historical context the relationship with the development of papermaking techniques in neighbouring countries were examined though primary focus was given to the development of materials and tools used In order to understand the characteristics of historical Korean paper and the development of tools and materials used over time surveys on Korean and Japanese collections at the British Library and a private Korean collection were carried out Korean objects dated between the 12th and the 18th century were examined The data collected from the surveys was compiled in a database and analysed The data analysis revealed that the thickness of paper was closely related to the thickness of bamboo splints used in manufacture of papermaking screens Research also included a summary of morphological characteristics and photomicrographs of fibres from nine indigenous plants which were used for traditional Korean papermaking These standard fibre samples were used as reference to identify the fibres of unknown paper objects surveyed This fibre identification confirmed the main material to be paper mulberry and additionally provided information on supplementary materials including rice straw reed hemp and mechanical wood pulp of coniferous origin a material that has not been recognised as one of the common supplementary materials in previous studies In order to provide a better understanding of the materials and tools used in traditional papermaking in Korea three papermaking experiments were carried out Firstly a papermaking experiment was conducted using a mucilaginous substance derived from the roots of Hibiscus Manihot which has been employed as a formation aid for considerable time in Korea and Japan Paper samples were then analysed to investigate the physical influence of the substance on the sample sheets Secondly a fixed laid screen was designed and sheets were produced using it The intention here was to support a hypothesis which was proposed by the author in order to explain a possible chronological development of papermaking mould structure in China and its potential spread to neighbouring countries The last experiment was conducted to simulate a technique of papermaking with reclaimed paper Although the use of reclaimed paper was recorded in early literature details of the process were unknown
