gained from Vascellaro's experience as a teacher, school administrator and teacher educator. Out of the Classroom and into the World is a direct retort to test scores and standards as adequate measures of teaching and learning, an inspiring call and major new resource for anyone interested in reinvigorating America's classrooms. *Social Studies Review*, 2005 **The Social Studies Professional**, 2005 **Catalog of Copyright Entries. Using a teacher-friendly hands-on approach, this eminently practical book walks educators through the nuts and bolts of literacy intervention in the middle grades. Highlights include North Star principles to orient instruction, an assessment flowchart and extended case studies of three middle grades learners. The book offers evidence-based intervention practices for targeting specific literacy components including word recognition, fluency, vocabulary and comprehension. Teachers are guided to plan structured but flexible interventions that promote literacy growth and engagement. Sample lesson plans and clear, engaging figures illustrate how to make literacy intervention work for all students. *Quality Middle School Leadership* L. David Weller, 2002 Dealing with theory and research before presenting examples of applying principles in practice, Weller's educational leadership at the University of Georgia attempts to combine the quality management theory of W. Edwards Deming and his own research on middle school principles. Addressing essential skills for principals and components of quality producing middle schools, he discusses team building and planning, interdisciplinary curriculum, intramural athletics, remedial education, community and home involvement and scheduling. Annotation copyrighted by Book News, Inc., Portland, OR [More Strategies for Educating Everybody's Children](#) Robert W. Cole, 2001 This book presents a collection of papers offering practical strategies that teachers can use to enhance student performance at all levels. The authors identify and describe the most effective teaching approaches for helping students learn history, civics, geography and science. The book extends the notion of diversity by examining different populations that have been underserved by schools, e.g., homeless and immigrant students. After a Foreword by Gene R. Carter and a Preface by Robert W. Cole and Helene Hodges, the eight papers are: 1. Overcoming a Pedagogy of Poverty, Helene Hodges; 2. Diverse Teaching Strategies for Homeless Children, Evelyn Reed Victor and James H. Stronge; 3. Diverse Teaching Strategies for Immigrant Children, JoAnn Crandall, Ann Jaramillo, Laurie Olsen and Joy Kreeft Peyton; 4. Strategies for Increasing Achievement in Civics, Mary Ellen Bafumo and Burton Cohen; 5. Strategies for Increasing Achievement in Geography, Mary E. Haas; 6. Strategies for Increasing Achievement in History, Virginia E. Causey and Beverly J. Armento; 7. Strategies for Increasing Achievement in Science, Charles Watson, Alvin Pettus and Steven Fairchild; and 8. ASCD Talks Back: educators respond to papers in this volume. Papers contain references.
