MANUALS TECHNICAL PUBLICATIONS SERVICE SHEETS In 1945 after the war had ended BSA resumed production of their civilian line of motorcycles However they continued their pre war practice of publishing repair overhaul and technical information in the form of individual Service Sheets It should be noted that BSA never intended that these service sheets would be distributed to the general public they were dealer only publications Consequently these Service Sheets were the only publications available for the maintenance and repair of BSA models that were manufactured through the early 1960 s

INSTRUCTION MANUAL BSA published an Instruction Manual titled How to ride the BSA Dandy This publication was somewhat more detailed than most typical owner s manuals as it included basic overhaul information in addition to general maintenance and adjustments However when used in conjunction with the Service Sheets they are a reasonable substitute for a workshop manual

PARTS or SPARES MANUAL The parts manual includes exploded component diagrams which are

extremely helpful in the rebuilding or restoration process MEET THE PUBLISHER VelocePress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product We encourage you to exercise caution when purchasing a manual for your motorcycle as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years With more than 250 titles in print VelocePress is one of the fastest growing specialty automobile and motorcycle publishing companies in the USA Please visit our website at www.VelocePress.com for more information on our company and our books
