Contemporary Art About Architecture Nora Wendl, 2017-07-05 An important resource for scholars of contemporary art and architecture this volume considers contemporary art that takes architecture as its subject Concentrated on works made since 1990 Contemporary Art About Architecture A Strange Utility is the first to take up this topic in a sustained and explicit manner and the first to advance the idea that contemporary art functions as a form of architectural history theory and analysis Over the course of fourteen essays by both emerging and established scholars this volume examines a diverse group of artists in conjunction with the vernacular canonical and fantastical structures engaged by their work I Manglano Ovalle Matthew Barney Monika Sosnowska Pipo Nguyen duy and Paul Pfeiffer are among those considered as are the compelling questions of architecture's relationship to photography the evolving legacy of Mies van der Rohe the notion of an architectural unconscious and the provocative concepts of the unbuilt and the unbuildable Through a rigorous investigation of these issues Contemporary Art About Architecture calls attention to the fact that art is now a vital form of architectural discourse Indeed this phenomenon is both pervasive and in its individual incarnations compelling a reason to think again about the entangled histories of architecture and art

Architectural Affects after Deleuze and Guattari Marko Jobst, Hélène Frichot, 2020-12-27 Architectural Affects after Deleuze and Guattari is the first sustained survey into ways of theorising affect in architecture It reflects on the legacy and influence of Gilles Deleuze and Félix Guattari in the uptake of affect in architectural discourse and practice and stresses the importance of the political in discussions of affect It is a timely antidote to an enduring fixation on architectural phenomenology in the field The contributors offer a variety of

approaches to the challenges presented in discussing the relation between affect and architecture and how this is contextualised in the broader field of affect studies Ranging from evaluations of architectural and urban productions and practices to inquiries into architectural experience to modes of affective inquiry in education to experimental affective writing each contribution to this seminal volume suggests ways of developing a more sustained approach to a crucial thematic domain The volume will be of use to students at both undergraduate and postgraduate levels researchers theorists and historians of architecture and related urban and spatial disciplines the fields of social science and cultural theory and to philosophy in particular the studies of Deleuze and Guattari and Baruch Spinoza **Sylvia Lavin** Syracuse University. School of Architecture, 2005 **Spoken Into the Void** Adolf Loos, 1987-01 The Vienna Jubilee Exhibition of 1898 provided the occasion for these remarkable essays by the Austrian architect theorist and irreverent critic of his own culture Adolf Loos The rational underpinnings of his later accusation that ornament is crime first appear in these polemical thrusts at the stylized work of Viennese successionists Joseph Hoffmann Otto Wagner Hermann Obrist and Gustav Klimt among others
