

Kite building activity

Estimated Length	• Approximately 2 Class periods for research and planning • Approximately 2 class periods for construction of kite • Class period for flying kites • 2 Class periods for any necessary adjustments and reflying kites
Prerequisite knowledge/skills	The students will have background knowledge in different types of renewable energy. The students should have knowledge of wind basics; such as the fact that wind is created by differences in earth temperature and also the effects of wind on objects, in particular lift and drag. This background knowledge will be used to help build an efficient windmill blade design.
Description of New Content	The students will learn how a kite flies; this lesson is a precursor for the windmill activity. By learning how a kite flies, the students will learn about the power of the wind; particularly how drag, lift and gravity enable objects such as kites and airplanes can fly. This knowledge will be used to help design a kite that flies.
Rationale	This kite activity is a fun way for students to learn about the basic concepts of wind power; lift, drag and gravity. This activity will help the students build efficient windmill blades for the windmill activity.
Goals	• The students will understand the concepts of lift, drag, and gravity in order to understand how a kite flies. • The students will build a kite.
Materials Needed	• 3' square of heavy plastic bag • 5 feet of basil wood • Glue, glue gun, tape • string
