Knowledge Power And International Policy Coordination Studies In International Relations:

International Legitimacy and the Politics of Security Alan Craig, 2013-06-20 Delegation has become the new battleground for Israel and the critics of Israeli military operations But the Israeli experience reveals a more general engagement where all states act strategically to build legitimacy for their policies and all resist attempts at delegitimation To understand these processes it is necessary to see how politicized moral and legal judgments shape both the use of force by states and our judgments about the means and the outcomes This is a book about legitimacy military lawyers and security More particularly it is about how the legitimacy of Israel s asymmetric military operations cannot be detached from the politics of law and ethics Sometimes it is enough that states respect the laws of armed conflict but at other times they may be held to a higher standard This does not happen in a vacuum Rather it is the product of political engagement in the murky politics of international legitimacy where standards are negotiable and some states get a harder time than others There is a strong theoretical analysis underpinning a discussion that constantly returns to the practical problems of modern armed conflict where combatants hide among civilians and states complain about the unrealistic expectations of human rights NGOs Here the law is unclear and there are choices to be made The book presents new research into the involvement of Israeli military lawyers in operational targeting decision making that has life and death consequences The case studies concern targeted killing during the Second Intifada Israel s 2006 Lebanon War the 2009 Operation Cast Lead in Gaza and finally the 2010 Israeli maritime interception of the Turkish Flotilla to Gaza The investigation identifies a struggle between the proponents of human rights in war and those who promote the rights of states to deploy military force for the security of their citizens But not all parties to a military conflict are held to the same standards In fact the analysis maps a complex political deployment of law and ethics in the strategic calculation of legitimacy costs and the diplomatic processes whereby they are contested with policy implications for those in charge of the design and execution of military operations *The Politics of Justifying Force* Charlotte Peevers, 2013-11-07 What are the politics involved in a government justifying its use of military force abroad What is the role of international law in that discourse How and why is international law crucial to this process And what role does the media have in mediating the interaction of international law and politics This book provides a fresh and engaging answer to these questions It introduces different actors to the study of international law in this context in particular highlighting the importance of institutional actors and the role of the media It takes a theoretical approach informed by detailed empirical analysis of key case studies which challenges the traditional distinction between the spheres of the international and the domestic in global affairs and the role of international law in the making of public policy The book specifically critiques the idea of the politics of justification which argues that deploying international legal norms to justify governmental decisions resulting in the use of force necessarily constrains government actions and leads to fewer instances of military intervention The politics of justification on this account can be seen as a progressive practice through

which international law can become embedded in domestic societies The book investigates the actors engaged in this justification and the institutional contexts within which legal justification is articulated interpreted and contested It provides a rich detailed account of domestic British discourse in the crucial case studies of the Suez Crisis of 1956 and the Iraq War of 2003 making extensive use of archival material newspaper and television reporting Parliamentary debates polling data personal memoirs and the declassified material provided to several Public Inquiries including the Chilcot Inquiry In light of these sources it considers the concept of international law as a language and form of communication rather than a set of abstract norms It argues that a detailed understanding of how that language is deployed both in private and in public is essential to gaining a deeper understanding of the role of international law in domestic politics This book will be illuminating reading for scholars and students the use of force in international law historians and media theorists **Millennial**

Reflections on International Studies Michael Brecher, Frank P. Harvey, 2009-12-22 Collection of essays that debate the question of progress in the discipline **History Education and International Relations** Hirano Mutsumi, 2009-02-12

This is the first in depth study to examine the implications of history education in the context of international relations interstate and transnational focusing on Japanese textbooks as the principal case study The author argues that despite a widespread recognition that our grasp of history has some relevance to our views and attitudes towards foreign countries and peoples ergo ultimately its impact on national policy there appears to be little coherent discussion of such a significant topic and its practical applications in the field of International Relations This study therefore develops a conceptual framework and directs attention to the factors which predetermine the perceptions and attitudes of the public and policy makers and in doing so searches for the roots of their world view The book addresses the following issues Government Influence on the Domestic Educational Environment The Domestic Environment and its Interaction with the External Environment History Education in Practice A case of Japan The Japanese History Textbook Disputes in the Asian Context Parts I and II Twenty five Years On The Task of Coming to Terms with the Past **The Global Politics of Science and Technology - Vol. 1** Maximilian Mayer, Mariana Carpes, Ruth Knoblich, 2014-08-20

An increasing number of scholars have begun to see science and technology as relevant issues in International Relations IR acknowledging the impact of material elements technical instruments and scientific practices on international security statehood and global governance This two volume collection brings the debate about science and technology to the center of International Relations It shows how integrating science and technology translates into novel analytical frameworks conceptual approaches and empirical puzzles and thereby offers a state of the art review of various methodological and theoretical ways in which sciences and technologies matter for the study of international affairs and world politics The authors not only offer a set of practical examples of research frameworks for experts and students alike but also propose a conceptual space for interdisciplinary learning in order to improve our understanding of the global politics of science and technology This first volume summarizes

various time tested approaches for studying the global politics of science and technology from an IR perspective It also provides empirical theoretical and conceptual interventions from geography history innovation studies and science and technology studies that indicate ways to enhance and rearticulate IR approaches In addition several interviews advance possibilities of multi disciplinary collaboration Knowledge, Power, and International Policy Coordination Peter M. Haas,1997 Demonstrates that control over knowledge information is an important determinant of international policy coordination the difficulty of achieving it International Relations Theory Mark V. Kauppi,Paul R. Viotti,2019-08-27 Theory meets intellectual history in this new and expanded edition of International Relations Theory Long known for its concise presentation of the various images and interpretive understandings of how to approach the complexity of international politics this edition devotes a significant portion of the book to the intellectual precursors who have informed current perspectives on international relations The discussion moves well beyond the usual cannon of Thucydides Machiavelli and Hobbes by linking them and other writers to present day IR theory realism liberalism economic structuralism and English School images as well as constructivist feminist postmodern and critical theory lenses This unique approach enhances our abilities to think conceptually and critically not only about how our 21st century world of diverse state and non state actors works but also the implications of the changes we observe domestically and globally *A Liberal Peace?* Susanna Campbell,David Chandler,Meera Sabaratnam,2011-11-10 Moving beyond the binary argument between those who buy into the aims of creating liberal democratic states grounded in free markets and rule of law and those who critique and oppose them this timely and much needed critical volume takes a fresh look at the liberal peace debate In doing so it examines the validity of this critique in contemporary peacebuilding and statebuilding practice through a multitude of case studies from Afghanistan to Somalia Sri Lanka to Kosovo Going further it investigates the underlying theoretical assumptions of liberal peacebuilding and statebuilding as well as providing new theoretical propositions for understanding current interventions Written by some of the most prominent scholars in the field alongside several new scholars making cutting edge contributions this is an essential contribution to a rapidly growing interdisciplinary area of study Theorizing Southeast Asian Relations Amitav Acharya,Richard Stubbs,2013-10-31 The recent proliferation of theories of international relations has transformed analyses of Southeast Asia s international affairs A new generation of scholars has promoted a lively and illuminating debate which has seen the traditional realist neorealist approach which continues to hold centre stage challenged by constructivist analyses In turn constructivists have found themselves under fire from an array of competing approaches This collection engages this emerging debate It underscores the point that Southeast Asia is now an important site for applying new theories of international relations It also demonstrates that theoretical frameworks originally developed in North America and Europe have to be adapted to the specific circumstances found in places like Southeast Asia and that this process can enrich theory building The chapters in this book focus on the realist neorealist constructivist English School

and critical approaches The resulting debate helps to shed light on ways of analysing Southeast Asian relations as well as on the evolution of these key theoretical frameworks This book was published as a special issue of The Pacific Review

Theoretical Approaches to European Integration Sabine Saurugger,2013-08-30 This major new text provides a uniquely broad ranging introduction to and assessment of the contribution of the whole range of theoretical approaches that have been applied to the analysis of European integration It provides tools for understanding the underlying logic behind the political and economic debates that take place in the EU today

Pragmatism in International Relations Harry Bauer,Elisabetta Brighi,2009-01-13 This collection of essays introduces pragmatism to the study of international relations and evaluates its potential for the theory and practice of global politics Seeking to reorient the discipline of International Relations IR towards practices and problematic situations the editors of this volume draw on the pragmatist tradition to provide critical inspiration for this task Their book organised into four distinct parts aims to outline the potential of pragmatism to reconstruct IR Through such an approach this volume seeks to re invigorate the discipline and bridge the gap between IR academic communities in the US UK and continental Europe This pioneering volume provides the first book length evaluation of the potential pragmatism holds for the practice as well as the epistemological theoretical and normative debates within the discipline of IR theoretical reflections and empirical studies in the area of diplomacy international law public environmental policy and the Arab Israeli conflict highly original contributions by prominent scholars in the field of IR International Law Sociology and Social Theory Drawing on research from several disciplines Pragmatism in International Relations will be vital reading for students and scholars of International Relations International Relations Theory and Social Theory

Community Radio Policies in South Asia Preeti Raghunath,2020-08-07 The book draws on critical media policy studies to study the principles and performances of policies and policymaking for community radio in four countries of South Asia Sri Lanka Nepal India and Bangladesh It focuses on the processes and practices of deliberation that go into policymaking across space and time and the global local spectrum It stitches together a critical media policy ethnography drawing on over a 100 formal interviews and informal conversations with policy actors from South Asia in a bid to present a deliberative policy analysis of policymaking for community radio in the region Drawing on Grounded Theory the book fleshes out the Deliberative Policy Ecology Approach as an inclusive heuristic to study media policies

In the Eyes of the Dragon Yong Deng,Fei-Ling Wang,2000-01-01 Presenting new and invaluable Chinese perspectives on international relations in general and Beijing s foreign policy in particular this work offers the first balanced and thoroughly researched analysis by Chinese scholars Drawing on original Chinese sources and interviews In the Eyes of the Dragon explores Chinese views on sovereignty national interest security multilateralism international human rights nuclear nonproliferation Taiwan and the United States Illuminating how China views the post Cold War world and its place therein the contributors enhance our understanding of the nationalist sentiments driving the PRC s foreign policy and elevate the debate over China to a higher

more sophisticated and productive level **The EU's Common Security and Defence Policy** Giovanni Faleg,2016-11-01 This book accounts for transformations in the EU's Common Security and Defence Policy CSDP during fifteen years of operations 2001-2016 and argues that the EU evolved into a softer and more civilian security provider rather than a military one This learning process was driven by transnational communities of experts and practitioners which acted as engines of change Giovanni Faleg analyses two innovative concepts introduced in the EU security discourse since the late 1990s security sector reform SSR and civilian crisis management CCM Both stem from a new understanding of security involving the development of non military approaches and a comprehensive approach to crisis management However the implementation of the two policy frameworks by the EU led to very different outcomes The book explains this variation by exploring the pathways by which ideas turn into policies and by comparing the transformational power of epistemic communities and communities of practice p **Palgrave Handbook of Inter-Organizational Relations in World**

Politics Rafael Biermann,Joachim A. Koops,2016-11-29 This unique handbook brings together a team of leading scholars and practitioners in order to map synthesize and assess key perspectives on cooperation and rivalry between regional and global organizations in world politics For the first time a variety of inter disciplinary theoretical and conceptual perspectives are combined in order to assess the nature processes and outcomes of inter organizational partnerships and rivalries across major policy areas such as peace and security human rights and democratisation as well as finance development and climate change This text provides scholars students and policy makers of International Relations with an exhaustive reference book for understanding the theoretical and empirical dimensions of an increasingly important topic in International Relations IR Global Governance and related disciplines Sustainability in European Environmental Policy Rob Atkinson,Terizakis

Georgios,Karsten Zimmermann,2010-10-18 This book examines sustainability in European environmental policy and explores the related challenges of governance and knowledge featuring cross national and comparative case studies on nine European countries **Handbook of International Relations** Walter Carlsnaes,Thomas Risse,Thomas Risse-Kappen,Beth A

Simmons,2002 NEW IN PAPERBACK FEBRUARY 2005 The most systematic and wide ranging survey of the multi faceted field of International Relations yet produced It is sure to become a standard reference work and teaching text and is unlikely to be superseded at any time in the near future It should be considered as essential reading International Affairs The Handbook of International Relations published 2002 in hardback quickly established itself as the benchmark volume providing a state of the art review and indispensable guide to the study of international relations It is now released in paperback in order to be accessible to students in classroom use Divided into three parts the volume reviews both the historical philosophical analytical and normative roots to the discipline and the key contemporary topics of research and debate today The first part introduces the major approaches within the field and unpacks many of the on going debates within the discipline including those between rationalist and constructivist approaches The second part moves on to explore

the key concepts and contextual factors important to the subject from concepts like the state and power to international and transnational actors debates around globalization and contending feminist perspectives The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II Examples of the many topics included are foreign policy war and peace security nationalism and ethnicity finance trade development the environment and human rights

International Migration and the Globalization of Domestic Politics Rey Koslowski, 2006 This book considers the impact of migrant communities on the politics of their home nations with case studies from Israel Turkey Kurdistan the Dominican Republic Mexico and Sri Lanka

The Politics of Expertise in International Organizations Annabelle Littoz-Monnet, 2017-02-24 This edited volume advances existing research on the production and use of expert knowledge by international bureaucracies Given the complexity technicality and apparent apolitical character of the issues dealt with in global governance arenas evidence based policy making has imposed itself as the best way to evaluate the risks and consequences of political action in global arenas In the absence of alternative democratic modes of legitimation international organizations have adopted this approach to policy making By treating international bureaucracies as strategic actors this volume address novel questions why and how do international bureaucrats deploy knowledge in policy making Where does the knowledge they use come from and how can we retrace pathways between the origins of certain ideas and their adoption by international administrations What kind of evidence do international bureaucrats resort to and with what implications Which types of knowledge are seen as authoritative and why This volume makes a crucial contribution to our understanding of the way global policy agendas are shaped and propagated It will be of great interest to scholars policy makers and practitioners in the fields of public policy international relations global governance and international organizations

Environmental NGOs in World Politics Matthias Finger, Thomas Princen, 2013-01-11 At a time when states are reactive at best to the global ecological crisis and when economic globalization seems to be significantly contributing to the acceleration of that crisis environmental non governmental organisations NGOs are proliferating This book explains the key role of NGOs in an emerging world environmental politics showing how NGOs act both as independent bargainers and as agents of social learning to link biophysical conditions to the political realm at both the local and global levels Through the use of case studies the authors reveal the richness and diversity of NGO activity and the difficulty of the choices facing decision makers in their attempts to protect the environment seek new forms of governance and foster social environmental learning The book generates questions that are central not only to an understanding of NGO relations but to the study of international environmental politics *Environmental NGOs in World Politics* will be of great interest to upper level student and scholars of both environmental politics and international relations It will also appeal to environmental policy professionals
