arguably started after World War II with the CJ 2A being introduced to the masses and while the early CJs have their share of enthusiasts the largest group of enthusiasts began their love affair with the AMC powered Jeep CJ 5s beginning in 1972. Joined by the longer wheelbase CJ 7 models introduced in 1976 the CJ models were wildly popular through their discontinuation in 1986 when the Wrangler was introduced. These were the only models originally equipped with V 8 engines in any meaningful way. This era combined the ruggedness of the early Jeeps with some of the advancements and horsepower of a more modern era it makes a platform that is both fun to own and to modify.
