upon a continuous qualitative analysis of the public debates in these communities this book demonstrates that the societal conflicts about atomic power were never confined to the risks of one exceptional energy technology. Instead they were shaped by larger societal issues which they in turn heavily influenced. Therefore the local discourses about nuclear energy provide an insight into transformations the British and German societies underwent during the Cold War. The book will be of value for scholars and students interested in the history of technology, environmental, political and contemporary history as well as science and technology studies. It will be of interest to researchers and members of the public interested in the local history of Bilibis Hinkley Point, Lingens Oldbury on Severn, Sellafield and Torness as well as the wider public interested in the ongoing debates about nuclear power as a source of energy and a potential answer to the challenges of climate change.

Irish Business and Society John Hogan, Paul F. Donnelly, Brendan K. O'Rourke, 2010-10-29. A collection of stimulating essays exploring the wide ranging debates surrounding the relationship between business and society in 21st century Ireland. Wide ranging, diverse and thought provoking contributions from leading business researchers, economists, sociologists and political scientists from Ireland and abroad probe five central themes: the making and unmaking of the Celtic Tiger; governance, regulation and justice; partnership and participation; the nature of Irish borders in Ireland, Europe and the wider world; and interests and concerns in contemporary Ireland. *Irish Business and Society* takes a critical look at Ireland as one of the most open and globally integrated economies in the world, with the activities of Irish and Irish based foreign business impacting on both national and international societies and businesses. It discusses the relationships between business and society within the context of the wider Irish and European political economy, presents the Irish economic decisions and conditions that precipitated the current recession in Ireland and the resultant lessons to be learned, and examines the relationship between Irish business and society today, contemplating how it might develop into the future. Essential reading for students of Irish Business, Economics, Sociology and Politics, those taking Irish Studies courses and anyone interested in contemporary Ireland. The contributors are: Nicola Timoney, Frank Barry, Mary P. Murphy, William Kingston, Niamh M. Brennan, Rebecca Maughan, Roderick Maguire, Gillian Smith, Conor McGrath, Connie Harris, Ostwald, Kevin O'Leary, Jesse J. While for some this may partly remain Oscar Wilde's mode of style, this book will show that there is more of Japan in the work of contemporary Irish poets than a tinkling of china and tea into china. Drawing on unpublished new sources, Irene De Angelis includes poets from a broad range of cultural backgrounds with richly varied styles. Seamus Heaney, Derek Mahon, Ciaran Carson and Paul Muldoon together with

younger poets such as Sin ad Morrissey and Joseph Woods Including close readings of selected poems this is an indispensable companion for all those interested in the broader historical and cultural research on the effect of oriental literature in modernist and postmodernist Irish poetry *Books Ireland* ,2007 *Environmental Issues in Political Discourse in Britain and Ireland* Gilles Leydier,Alexia Martin,2013-09-17 This book examines the political response to current environmental concerns in the context of the British Isles How have the issues been assimilated by political parties Which ones have been given priority Who are the main actors and what is the role of ecologists Answers to questions such as these are provided in this collective work not only through valuable insights into the theories and concepts found in political ecology but also with specific examination of present political debates such as the Liberal Democrats stance the question of nuclear energy or the salient issue of climate change A recurring theme is the link between landscape and identity explored in the contexts of Welsh Scottish and Irish nationalisms While this volume reveals some cases of genuine commitment and effective action it also highlights discrepancies between statements of intent on the one hand and implemented policies on the other The authors aim is to promote dialogue among politicians experts and academics in the field of environmental issues political and social sciences linguistics and discourse **Zur Souveränitätskonzeption des Europäischen Gerichtshofs** Andreas Bergmann,2018-02-16 English summary The ECJ has promoted the constitutionalisation of the European legal order based on a dialogue with national courts At the same time the Court isolates the Union s legal system from public international law revealing a conception of the EU s legal order resembling central elements of national sovereignty German description Vor dem Hintergrund elementarer Herausforderungen der Europäischen Union entwickelt der Europäische Gerichtshof die Unionsrechtsordnung konsequent weiter Während seine nach innen gerichtete Rechtsprechung entscheidend zur Konstitutionalisierung der Verträge beigetragen hat und judikativer Dialog und Einbindung der nationalen Gerichte das Wesen der Unionsrechtsordnung prägen zeigt sich in der Abgrenzung von volkerrechtlichen Streitschlichtungsinstitutionen ein entgegengesetztes Bild In der Rechtsprechung des Europäischen Gerichtshofs scheint hier eine Konzeption des Wesens der Unionsrechtsordnung durch die an klassische Elemente nationaler Souveränität erinnert Damit durchdringt das Europarecht nicht nur die nationalen Rechtsordnungen sondern grenzt sich gleichzeitig nach aussen hin konsequent von einem zunehmend fragmentierten Völkerrecht ab *The Guardian Index* ,2002
