Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA s mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill Modernity and the Construction of Sacred Space Aaron French, Katharina Waldner, 2024-07-01 This volume focuses on the connection between modern design and architectural practices and the construction of sacred spaces Not only language and ritual but space place and architecture play a significant role in constructing special or religious spaces However this concept of a constructed sacred space remains undertheorized in religious studies and the history of art and architecture in general This volume therefore revisits the question of a modern sacred space from an interdisciplinary perspective focusing on religion space and architecture during the emergence of the modern period and up until contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today **Tarot Every Witch Way** Lilith Dorsey, 2025-08-05 Strengthen Your Witchcraft Through the Cards Immerse yourself in the magic of tarot as Lilith Dorsey introduces you to the many ways it can complement your witchcraft Taking you beyond simple card meanings this book offers culinary recipes immersive meditations effective spells engaging crafts insightful spreads and much more With hundreds of tips and activities this extensive guide is full of inspiration for every magical practitioner Explore important symbolism with two art samples for each card one from the classic Tarot Original 1909 and the other from one of several modern Rider Waite Smith style decks Discover ways to combine tarot and magic with an extensive array of correspondences including crystals herbs animals astrology and musical notes Lilith also provides step by step instructions for making altars shrines and crystal grids to help empower your deck and your life Drawing from decades of experience as a diviner anthropologist and priestess Lilith

The Chaos Protocols Gordon White, 2025-08-05 The years since the financial crash have seen the realization dawn that the great promise of modern civilization will go unfulfilled Study hard work hard buy a house retire happy It s all a lie spun for the benefit of a tiny elite The richest eighty five people on earth have as much wealth as the poorest 3 5 billion Each month the numbers change but they never improve Magical and spiritual discourse has failed to keep up with this new reality The Chaos Protocols aims to fix that Join Gordon White as he shows you how to use chaos magic not only to navigate these trying times but to triumph as well Discover how to become invincible through initiation and wage the mind war that will keep you moving toward what you really want From sigil magic to working with spiritual allies The Chaos Protocols helps you

act on the unwavering belief that your life should matter and you're not going to let something as trifling as the apocalypse get in the way of it. Praise Gordon White gives a master class on the hard economic realities and the kind of low down and dirty magic for which he has become famous. Pragmatic, sharp and funny. The Chaos Protocols is a treasure of a book. Peter Grey, author of Apocalyptic Witchcraft, takes two parts Magick Without Tears, a measure of The Wealth of Nations, a pinch of Ian Fleming and a dash of Noel Coward, and you have this almost promiscuously readable text. Whoever said books on magick can't be fabulously entertaining as well as eminently practical has obviously not read up on their Gordon White. Remedy that situation. Chris Knowles, author of The Secret History of Rock n Roll and Our Gods Wear Spandex. Chaos Magick Seth Cardorra, 2023-10-23. How will you change the world? Warning: This is a heavy-duty grimoire full of magick, abstract magical theory, paradigm modeling, and subversive ideas. A collection of occult texts including Blood Magick, Post Modern Magick, and Tactical Magick, in addition to more spells, projects, history, and other writings. Liber Null & Psychonaut Peter J. Carroll, 2022-06-01. The most original and probably the most important writer on Magick since Aleister Crowley. Robert Anton Wilson, author of the Prometheus Rising and other works, Peter Carroll's classic work has been profound influence on the Western magical world and on the practice of chaos magick. In Liber Null and Psychonaut, Carroll presents an approach to the practice of magic that draws on the foundations of shamanism and animism as well as that found in the Greek magical papyri, the occult works of Eliphas Levi and Aleister Crowley, and the esoteric meditative practices of classical India and China. Also very much at work in the text are 20th century scientific ideas of quantum physics and chaos theory. The result is a profoundly original work of magical studies that also includes a selection of extremely powerful rituals and exercises for committed occultists with instructions that lead the reader through new concepts and practices to achieve Carroll's definition of magic itself: the raising of the whole individual in perfect balance to the power of infinity. This Weiser Classics edition is a thoroughly revised republication of Liber Null and Psychonaut first published by Weiser in 1987 and includes a new foreword by Ronald Hutton, a leading authority on modern witchcraft and paganism. **Condensed Chaos** Phil Hine, 1994. Magic is a doorway through which we step into mystery, wildness, and immanence. We live in a world subject to extensive and seemingly all-embracing systems of social and personal control that continually feed us the lie that we are each alone, helpless, and powerless to effect change. Magic is about change. Changing your circumstances so that you strive to live according to a developing sense of personal responsibility that you can effect change around you if you choose that we are not helpless cogs in some clockwork universe. All acts of personal collective liberation are magical acts. Magic leads us into exhilaration and ecstasy, into insight and understanding, into changing ourselves and the world in which we participate. Through magic, we may come to explore the possibilities of freedom. Magick and Prosperity: a Guide to Using Chaos Magic Oliver Hart, 2015-02-09. The Chaonomicon Jaq D Hawkins,2018-06-26 What is chaos magic Nearly forty years after its beginnings Pagans and magicians are still asking the question or finding conflicting information online Jaq D Hawkins was the first chaos magician to write of the history and elements of chaos magic for a widespread audience Now in this new volume that history is expanded and the concepts specialist terms and culture associated with chaos magic are clarified for a new generation of magic users Basic concepts and methods associations with Discordianism and the teachings of magicians of the past advice on how to survive the natural chaos that plagues those who choose the magical path or more precisely are chosen by it combine with an insightful perspective of the perversities of magic and the convoluted landscape of life through which the magical path leads us With some practical advice and basic spells designed to work within the very world of chaos wherein magic finds its direction this book is a simple yet unequalled sourcebook for dealing with the unpredictability of magic in a multiverse of natural chaos Excerpt from review by Peter J Carroll Jaq D Hawkins Chaonomicon gives a fair sketch of the general history of Chaos Magic without going into excessive detail about the personalities and the inevitable personal squabbles involved She shows the history and genesis of many of the ideas that came together to create a new way of thinking about magic and new ways of doing it The book contains a particularly good analysis of the historic and current functions of the Gods and Goddesses of Chaos and the relationship between the Chaoism that began in the UK and the Discordianism that began in the USA The Chaonomicon also describes many of the basic techniques of Chaos Magic in simple terms free from occult obscurantism so readers new to the subject can find much to try out experimentally Excerpt from review by Ray Sherwin If this were a film it might be described as a roller coaster ride and as might be expected the views from the top panoramas of magick chaos science chaos literature and the mythos itself are replete with comprehensive detail and a profound understanding of the subject Those looking for a How to manual should go elsewhere I referred to Tertiary Chaos as early as 1987 and chaos magick has matured even more since then as is evidenced in part by this book I recommend it highly
