## 2

## BASIC MANAGERIAL ACCOUNTING CONCEPTS

### DISCUSSION QUESTIONS

1. Cost is the amount of cash or cash equivalent sacrificed for goods and/or services that are expected to bring a current or future benefit to the organization. An expense is an expired cost; the benefit has been used up.
2. Accumulating costs is the way that costs are measured and recorded. Assigning costs is linking costs to some cost object. For example, a company accumulates or tracks costs by entering them into the general ledger accounts. Direct materials would be entered into the materials account; direct labor would be entered into the direct labor account. Then, these costs are assigned to units of product.
3. A cost object is something for which you want to know the cost. For example, a cost object may be the human resources department of a company. The costs related to that cost object might include salaries of employees of that department, telephone costs for that department, and depreciation on office equipment. Another example is a customer group of a company. Atlantic City and Las Vegas casinos routinely treat heavy gamblers to free rooms, food, and drink. The casino owners know the benefits yielded by these high rollers and need to know the costs of keeping them happy, such as the opportunity cost of lost revenue from the rooms, the cost of the food, and so on.
4. A direct cost is one that can be traced to the cost object, typically by physical observation. An indirect cost cannot be traced easily and accurately to the cost object. The same cost can be direct

**Management Accounting** Don R. Hansen, Maryanne M. Mowen, 1992      **Im T/A Cost Accounting**

Mowen, Hansen, 2005-03 The Instructor's Manual contains resources designed to streamline and maximize the effectiveness of your course preparation. This supplement contains a complete set of lecture notes for each chapter, a listing of all exercises and problems with estimated level of difficulty and time required for each solution. The Instructor's Manual also contains a list of learning objectives and key topics for each chapter and a set of transparency masters.      **Subject Guide to Books in**

**Print**, 1993      *Forthcoming Books* Rose Arny, 2002      Computer Information Systems and Industrial Management Khalid Saeed, Jiří Dvorský, 2020-05-22 This book constitutes the proceedings of the 19th International Conference on Computer Information Systems and Industrial Management Applications CISIM 2020 held in Białystok, Poland, in October 2020. Due to the COVID-19 pandemic, the conference has been postponed to October 2020. The 40 full papers presented together with 5 abstracts of keynotes were carefully reviewed and selected from 62 submissions. The main topics covered by the chapters in this book are biometrics, security systems, multimedia classification and clustering, industrial management. Besides these, the reader will find interesting papers on computer information systems as applied to wireless networks, computer graphics and intelligent systems. The papers are organized in the following topical sections: biometrics and pattern recognition applications, computer information systems and security, industrial management and other applications, machine learning and high performance computing, modelling and optimization.      **Solutions Manual for Mowen, Cornerstones of Managerial**
