*The Child Welfare Challenge* James K. Whittaker, 2017-07-12. Within a historical and contemporary context, this book examines major policy, practice, and research issues as they jointly shape child welfare practice and its future. In addition to describing the major problems facing the field, the book highlights service innovations that have been developed in recent years. The resulting picture is encouraging, especially if certain major program reforms are implemented and agencies are able to concentrate resources in a focused manner. The volume emphasizes families and children whose primary recourse to services has been through publicly funded child welfare agencies. The book considers historical areas of service: foster care and adoptions in home, family-centered services, child protective services, and residential services where social work has an important role. Authors address the many fields of practice in which child and family services are provided or that involve substantial numbers of social work programs, such as services to adolescent parents, child mental health, education, and juvenile justice agencies. This new edition will continue to serve as a fundamental introduction for new practitioners as well as a summary of recent developments for experienced practitioners.

*The Deepest Longing of Young People* Jerry Goebel, 2006. The best way to teach young people that they are valuable and meaningful is to offer them uninterrupted attention. By that simple yet powerful act, we are showing young people that it isn't what they can do for us that matters. What matters is their inalienable right to unconditional love. This is the deepest longing of our young people today: consistent, transparent relationship, not a new program or curriculum to tell them what to do or what they should value, but a caring, compassionate adult who will walk the path to wholeness with them. In *The Deepest Longing of Young People*, Jerry Goebel reminds us that the greatest statement we make to young people is to spend time with them, to come to them, especially when they have been most inconsistent and at that time be least judgmental. Every parent and everyone who works with youth should read this book.
