Klassenstrijd En Staking:

Shipbuilding and Ship Repair Workers around the World Raquel Varela, Hugh Murphy, Marcel Linden, 2025-10-01
Maritime trade is the backbone of the world's economy. Around ninety percent of all goods are transported by ship, and since World War II shipbuilding has undergone major changes in response to new commercial pressures and opportunities. Early British dominance, for example, was later undermined in the 1950s by competition from the Japanese, who have since been overtaken by South Korea and most recently China. The case studies in this volume trace these and other important developments in the shipbuilding and ship repair industries, as well as workers' responses to these historic transformations.

The End of the Schism Udi Greenberg, 2025
The dramatic story behind an extraordinary transformation: the reconciliation between Europe's Protestants and Catholics and the emergence of a new era of Christian collaboration. For centuries, Europe's Catholics and Protestants were bitter rivals, each group blaming the other for violence and alleged moral decline. Yet starting in the 1930s, they swiftly made peace, abandoning old stereotypes and even forming joint political parties and social organizations. Why did these erstwhile adversaries suddenly start cooperating, and what were the consequences? A groundbreaking study, *The End of the Schism*, overturns conventional wisdom about this revolutionary change. Udi Greenberg shows that ecumenism did not grow out of mutual tolerance. Rather, Christian thinkers and politicians on both sides of the Catholic-Protestant divide came together to contain what they considered growing threats to Christian life: socialism, feminism, and Afro-Asian liberation movements. This project of interconfessional peacemaking accelerated with the rise of the Nazis, whose call for religious unity sparked intense debates among Christian denominations about their relationships with one another. Their rapprochement culminated in the unfolding of the Cold War and decolonization, when Catholic and Protestant authorities formally declared each other brethren in faith. *The End of the Schism* makes clear the enormous consequences of the ecumenical revolution. By working together, Catholics and Protestants were able to design Europe's economic policies, regulate its sexual practices, and deeply shape its postwar relationship with the Global South. As confessional attachments in Europe have weakened, this coalition of Christians has only grown more cohesive, leveraging their alliance to maintain influence across a politically fractured continent. *Farewell to Innocence* Allan Aubrey

Boesak, 2015-05-01
While we acknowledge that all expressions of liberation theology are not identical, we must protest very strongly against the false divisions that some make between black theology in South Africa and black theology in the United States, between black theology and African theology, and between black theology and Latin American liberation theology. But moving away from the illusioned universality of western theology to the contextuality of liberation theology is a risky business, one that cannot be done innocently. In the search for theological and human authenticity in its own situation, black theology does not stand alone. It is but one expression of this search going on within many different contexts. Until now, the Christian church had chosen to move through history with a bland kind of innocence, hiding the painful truths of oppression.

behind a facade of myths and real or imagined anxieties This is no longer possible The oppressed who believe in God the Father of Jesus Christ no longer want to believe in the myths created to subjugate them It is no longer possible to innocently accept history as it happens silently hoping that God would take the responsibility for human failure The theology of liberation spells out this realization For the Christian church it constitutes in no uncertain terms farewell to innocence
