Kmpg Tax Guide:

International Taxation of Manufacturing and Distribution John Abrahamson, 2016-02-18 The most thorough treatment of its subject available this book introduces and analyses the international tax issues relating to international manufacturing and distribution activities extending from the tax regime in the country where the manufacturing activities are located through to regional purchase and sales companies to the taxation of local country sales companies The analysis includes the domestic tax laws relating to manufacturing and distribution company profits as well as international tax issues relating to income flows and the payment of dividends Among the topics and issues analysed in depth are the following foreign tax credits taxation in the digital economy tax incentives intellectual property group treasury companies mergers and acquisitions leasing derivatives controlled foreign corporation provisions VAT and customs tariffs free trade agreements and customs unions transfer pricing role of tax treaties hedging related accounting issues deferred tax assets and liabilities tax risk management supply chain management depreciation allowances and carry forward tax losses The book includes descriptions of 21 country tax systems and ten detailed case studies applying the analysis to specific examples Detailed up to date attention is paid to the OECD Action Plan on Base Erosion and Profit Shifting BEPS and other measures against tax avoidance As a full scale commentary and analysis of international taxation issues for multinational manufacturing groups including in depth consideration of corporate structures tax treaties transfer pricing and current developments this book is without peer It will prove of inestimable value to all accountants lawyers economists financial managers and government officials working in international trade environments

The Oxford Handbook of International Tax Law Florian Haase, Georg Kofler, 2023-10-13 International Tax Law is at a turning point Increased tax transparency the tackling of Base Erosion and Profit Shifting BEPS the reconstruction of the network of bilateral tax treaties the renewed discussion about a fair and efficient allocation of taxing rights between States in a global digitalized economy and the bold push for minimum corporate taxation are some expressions of this shift This new era also demonstrates the increased influence of international standard setters such as the OECD the UN and the EU Each of these developments alone has the potential of being disruptive to the traditional world of international tax law but together they have the potential to reshape the international tax system The Oxford Handbook of International Tax Law provides a comprehensive exploration of these key issues which will shape the future of tax law Divided into eight parts this handbook traces the history of international tax law from its earliest days until the present including reflections on the developments that have characterized the last one hundred years The second section places tax law within the broader international context considering how it relates to public and private international law as well as corporate trade and criminal law Sections three and four consider key legal principles and issues such as regional tax treaty models OECD dispute resolution and transfer pricing versus formulary apportionment Subsequent analysis places these issues within their European and cross border contexts providing an assessment of the role of the ECJ state aid and

cross border VAT Section seven broadens the scope of this analysis asking how trends in recent major economies and regions have helped shape the current outlook The final section considers emerging issues and the future of international tax law With over sixty authors from 28 different countries the Oxford Handbook of International Tax Law is an invaluable resource for scholars academics and practitioners alike *A Comparative Analysis of Tax Administration in Asia and the Pacific* Asian Development Bank, 2020-02-01 Improved tax systems can help countries in Asia and the Pacific generate the resources needed to implement the Sustainable Development Goals This report provides information on current tax administration practices in the region to help governments identify opportunities to strengthen their tax systems It analyzes the administrative frameworks practices and performance of revenue bodies in 34 economies The analysis was largely based on survey data gathered by the Asian Development Bank in collaboration with the Organisation for Economic Co operation and Development and the International Monetary Fund **Information Sources in Law** J.R. Winterton, Elizabeth M. Moys, 2012-06-21 The aim of each volume of this series Guides to Information Sources is to reduce the time which needs to be spent on patient searching and to recommend the best starting point and sources most likely to yield the desired information The criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it The series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources Revenue Administration Handbook Raúl Félix Junquera-Varela, Cristian Óliver Lucas-Mas, 2024-03-20 Revenue Administration Handbook provides a comprehensive overview of the structure and management of tax and customs administrations covering topics such as tax policy design considerations that impact tax administration institutional setup and strategic planning analytical capacities and maturity models core business processes and tax sanctions It also presents pioneering work in the field of digital transformation and how to build data science capabilities including a roadmap for policy makers and tax officials on how to incorporate and manage disruptive technologies such as machine learning into building modern revenue administrations while taking into account their respective maturity levels This practical manual provides examples from real life World Bank projects so that policy makers tax officials information technology experts and information and communication technology providers can better understand the needs of revenue administrations to design and implement the most appropriate technology solutions This reference work is intended to serve as a tool to facilitate the progress and modernization of tax and customs administrations worldwide and to reach not only tax experts and policy makers but also other government officials businesses and academic communities as well as the larger public since all are relevant stakeholders with an active role in day to day revenue administration operations This is a very timely and useful reference for tax practitioners and stakeholders coming at a time when tax administrators continue to grapple with the challenge of how to accelerate the modernization of technology systems to remain effective in a rapidly advancing and technology driven business

environment MOSES WASIKE Senior financial management specialist World Bank This is an impressive piece of work that pulls together many different strains on tax administration JEFFREY OWENS Director Global Tax Policy Center Vienna University Applying several technologies discussed in this handbook in an innovative manner will definitely help leapfrog countries to pursue a digital transformation agenda especially in the areas of efficiency productivity and citizen satisfaction

Transfer Pricing Developments around the world 2023 Raffaele Petruzzi, Michael Lang, 2022-01-13 Information Law Series 48 About this book Imposing Data Sharing among Private Actors is a vital book shedding light on the nature of certain economic and societal balancing exercises required for any compulsory business to business B2B data sharing initiatives because data sharing involves both benefits and potential costs While the economic value originating from data sharing seems evident identifying the legal framework to be applied to it is a challenge This is due to the multiple claims and rights aimed at controlling accessing or benefiting from data processing What s in this book Whether these initiatives pursue economic societal or empowerment objectives their potential benefits must be balanced with the following three considerations that are extensively investigated in the book the economic interests of the data holder personal data protection considerations and long term and collective costs in terms of individual autonomy The analysis elucidates how these aspects have been factored into existing compulsory B2B data sharing initiatives so far particularly in Europe and on how they may be used as a source of inspiration in future initiatives Insightful suggestions on the implementation of these balancing exercises conclude the volume How this will help you Based on law and literature in competition personal data protection and intellectual property the book greatly highlights the necessary balances underlying compulsory B2B data sharing and raises awareness about the crucial need to take the risks involved into consideration It will be highly appreciated by policymakers academics and private actors interested in issues linked to competition law in the digital environment regulation of platforms data governance or the interaction between competition law and personal data protection law
