Gangel,1997-01-05 Team leadership is the exercise of one s spiritual gifts under the call of God to serve a certain group of people in achieving the goals God has given them toward the end of glorifying Christ How is your church or organization governed Does it have an authoritarian top down administration Is the ministry vision developed by a few top officials with little input from staff or volunteers Today the definition of an effective leader has changed No longer does the model leader manage like the Lone Ranger either do it his way or no way Today the model leader shares responsibility with fellow team leaders and seeks to serve them In this complete revision of his earlier work *Building Leaders for Church Education* Dr Gangel carefully lays a biblical foundation for the team leadership model This leadership is not dogmatic control or personality worship It has no room for political power plays Instead it is Paul gently nurturing young Christians in his epistles It is Barnabas willingly thrusting others into situations where they develop their own gifts It is Christ choosing not one but twelve men to carry on His ministry It is servant leadership With examples illustrations and suggestions for further reading at the end of each chapter Dr Gangel prods and encourages the reader to move beyond the safety net of autocratic leadership into the rewarding effective practice of leading with and through others *Servant Leadership in Nursing* Mary

O'Brien,2011 *Servant Leadership in Nursing Spirituality and Practice in Contemporary Health Care* embraces the philosophy that a true leader in any venue must be a servant of those he or she leads This text includes current information on the relevance of servant leadership for nurses practicing in a health care setting with extensive literature review on leadership in nursing and healthcare as well as on servant leadership This unique text also includes many powerful and poignant perceptions and experiences of servant leadership elicited in tape recorded interviews with 75 nursing leaders currently practicing in the contemporary healthcare system *The Quest for Gender Equity in Leadership* KeumJu Jewel Hyun,Diphus

Chosefu Chemorion,2016-07-29 The call for gender equity in leadership has become a global concern From a Christian perspective all forms of gender prejudice are sinful because they violate God s intention for creating both men and women in God s image Although many Christian authors have published books and journal articles to address gender based injustice very few publications have approached the subject from an African perspective This book is meant to fill the existing gap With a specific reference to the African context this book explores the phenomenon of equity in leadership from various dimensions such as African culture and traditional religion church tradition biblical interpretation as well as from the perspective of contemporary socio economic and political realities in Africa By giving vivid examples of success stories of men and women working together the authors have demythologized the view that women cannot be leaders In addition this book is intended for general readership by Christian men and women throughout the globe For universities and colleges that teach gender studies as a subject the book can serve as a class text or reference resource Seminaries and theological institutions will also find it handy for training and mentoring Christians to promote equity in the church ministry business

Cumpston, 2024-08-09 *Leadership Points of Connection* developed from the realization that leadership is about making connections in all walks of life But connections are not just for leaders Points of connection are specific interactions with others that bring about illumination creativity innovation and discussions that help relationships grow and organizations expand Connections can unite people for a common purpose that impacts an organization or community for good Meaningful connections can be intentional business meetings or spontaneous moments that leave a long lasting impact The author defines each type of connection along with leadership principles in each chapter through authenticity transformation and service Real life experience and practical examples demonstrate how points of connection can make a difference to individuals organizations and communities Each chapter ends with thought provoking questions that encourage the reader to know who they are what they have to offer others and how to make a positive impact through a point of connection The author hopes that the reader will learn that points of connection go beyond What s in it for me to the encouragement of others through authentic transformational connections that positively impact people and communities **Leadership**
