Sridhar Babu, Jitendra Kumar Katiyar, Chandra Sekhar, Y. V. Mohan Reddy, R. Meenakshi Reddy, 2025-03-13 This open access proceedings volume provides the premier interdisciplinary forum for scientists engineers and practitioners to present their latest research results ideas developments and applications in the area of manufacturing advanced materials and sustainability It covers inspiring breakthrough innovations from fundamentals to technological challenges and applications that are shaping the era of industry 4 0 HIGHWAY MATERIALS AND TESTING Dr. B. Naga kiran, Dr. B. Sudharshan Reddy, Dr. R. Premsudha, Mohammad Parvej Alam, A Usha, This guidebook is unique in that it covers the processes for evaluating roadway materials while placing a strong focus on interpreting the findings and connecting them to real world uses In addition to acting as a foundational textbook for students pursuing degrees in civil engineering B E B Tech and diploma programmes in the same discipline this handbook would be extremely helpful for testing labs and field engineers **A Short Guide to Clinical Pharmacokinetics** Krishnaveni Manubolu, Raveesha Peeriga, K. B. Chandrasekhar, 2024-09-23 This book is a complete resource on pharmacokinetics pharmacodynamics and pharmacogenomics in clinical practice It consists of seven chapters that cover various aspects of pharmacokinetics and its clinical applications The chapters are structured to provide clear objectives and keywords are bolded throughout the text to facilitate understanding The topics covered include the significance of pharmacokinetics in clinical practice factors affecting pharmacokinetic parameters pharmacokinetic drug interactions therapeutic drug monitoring dosage adjustment in different population groups the influence of hepatic diseases on pharmacokinetics and the impact of pharmacogenomics on pharmacokinetics and pharmacodynamics The book is written in simple language to make the concepts accessible to all readers This book is a comprehensive resource for students pursuing a doctoral degree in pharmacy as well as academicians and researchers in clinical pharmacokinetics *Power System Operation and Control* Ramana N.V., 2010 *A Text Manual of Engineering Workshop Technology* N. Balasubramanyam, G. Prasanthi, 2016-05-26 This book on Basic Engineering Workshop Technology has been written as per curriculum of JNT University to help first Year B Tech Students This subject matter is presented in simple language and in a proper sequence so that an average student can be easily grasp the subject matter At the end of each exercise a model viva voice questions is given for the benefit of the book reader and appearing for their lab External examinations and other competitive examinations Pragmatic Engineering and Lifestyle David S-K. The Agile Coach's Playbook: A Practical Guide to Leading Agile Transformations

Sugeetha Avvaru Dr B. Srinivasa Rao, 2025-02-05 In a world where change is the only constant organizations face mounting pressure to adapt innovate and deliver value faster than ever before Agile has emerged as a guiding light for navigating these challenges promising flexibility collaboration and continuous improvement Yet transitioning to Agile is rarely a straightforward journey It requires more than just implementing new frameworks or tools it demands a fundamental shift in mindset culture and leadership As an Agile coach you are at the heart of this transformation You are the catalyst who bridges the gap between vision and execution the navigator who steers teams through uncertainty and the mentor who empowers individuals to embrace new ways of working But even the most seasoned Agile practitioners can find themselves seeking guidance inspiration or fresh perspectives when tackling the complexities of real world transformations The Agile Coach's Playbook is designed to be your trusted companion on this journey It is not a theoretical tome or a collection of rigid rules Instead it is a practical guide filled with actionable insights proven techniques and stories from the trenches Whether you're coaching a single team or orchestrating an enterprise wide transformation this playbook equips you with the tools and strategies you need to lead with confidence and impact This book is for those who believe that agility is more than a process it's a mindset and a way of being It is for the curious learners the empathetic leaders and the relentless problem solvers who refuse to settle for good enough It is for you the Agile coach who strives to ignite change foster collaboration and help teams unlock their full potential As you explore these pages my hope is that you find not only practical advice but also a sense of camaraderie and inspiration Remember every Agile journey is unique and there is no single path to success But with the right mindset tools and a willingness to adapt you can create lasting transformations that empower individuals strengthen teams and drive meaningful results Let this playbook serve as a guide a resource and a source of encouragement as you embark on the rewarding and often challenging work of Agile coaching The road ahead may not always be easy but the impact you can create is immeasurable Welcome to the journey Let's get started Authors

Engineering Physics M N

Avadhanulu & TVS Arun Murthy, The book Engineering Physics is designed for the First Year Engineering students at Jawaharlal Nehru Technological University Kakinada Vizianagaram Anantapur and other universities in Andhra Pradesh The book is written with the singular objective of providing the students with a distinct source material as per the syllabus The book covers important topics such as Interference Diffraction Polarization Crystallography X ray Diffraction Dielectric Materials Magnetic Materials Quantum Mechanics Free Electron Theory Semiconductors Lasers Fibre Optics etc Throughout the book attention is given to the proper presentation It has all the features essential to arouse interest and involve students in the subject

Ai In Structural Engineering

DR. G. Chennakesava Reddy, B L Niranjan Reddy, Mr. Valicheti Phaneendra Kumar, Y. Dasthagir, Akula Subhakesavulu, *ADVANCED BUILDING MATERIALS* Shashi Kumar V N, A Siva Krishna, Jayashri

Chetan Dhake, Dr. G. Sree Lakshmi Devi, Engr Anwar Sadath M, This book deals with in order to maximise building efficiency in both new and existing structures a comprehensive review of the most recent developments in construction materials and building design is presented in Advanced Materials and Nanotechnology to Improve Energy Efficiency and Environmental Performance The following chapters are included in this book Thermoplastic insulating materials sustainable building materials advanced materials building materials and the environment introduction overall material trends impact of green walls on buildings and conclusion

Recent Trends in Applied Physics and Material Science Sudhir Bhardwaj, Manoj Singh Shekhawat, Bhuvneshwer Suthar, 2025-10-22 It gives us immense pleasure to present the Conference Proceedings of the Second International Conference on Recent Trends in Applied Physics Material Science RAM 2024 held on November 15 16 2024 at Bikaner Rajasthan India This prestigious event was organized jointly by Bikaner Technical University Bikaner and the Condensed Matter Research Society Bikaner with the support of our esteemed publication partners CRC Press and the Journal of Condensed Matter RAM 2024 brought together over 400 participants both offline and online from across the globe reflecting the vibrant and growing international interest in the domains of Applied Physics and Material Science The conference featured plenary and keynote lectures by eminent experts oral presentations and poster sessions providing a stimulating platform for the exchange of knowledge and recent advances in the field

Sustainable Building Materials and Construction B. Kondraivendhan, C. D. Modhera, Vasant Matsagar, 2022-05-13 This book presents the select proceedings of the International Conference on Sustainable Building Materials and Construction ICSBMC 2021 and examines a range of durable energy efficient advance construction and building materials produced from industrial wastes and byproducts The topics covered include advanced construction materials durability of concrete structures waste utilization repair rehabilitation of concrete structures structural analysis design composites nanomaterials and smart materials in seismic engineering The book also discusses various properties and performance attributes of modern age concretes including their strength durability workability and carbon footprint This book will be a precious reference for beginners researchers and professionals interested in sustainable construction and allied fields

Sustainable Electrical Engineering and Intelligent Systems Birudala Venkatesh Reddy, Y V Krishna Reddy, Md. Abdur Razzak, Surender Reddy Salkuti, 2025-09-10 This book comprises a selection of papers presented at the International Conference of Sustainable Electrical Engineering and Intelligent Systems ICSEEIS 2025 It presents a rich repository of groundbreaking research at the intersection of artificial intelligence and electrical engineering for a sustainable future The papers in this collection touch upon a wide array of topics including developments in smart grid technologies machine learning applications for power system optimization and the integration of renewable energy This volume also provides an in depth analysis of intelligent control systems energy efficiency and the use of AI to solve the problems of sustainable energy management Readers can expect to find the latest advances in fault detection predictive maintenance and the creation of strong and resilient electrical

infrastructure in this book The findings would be instrumental in fostering a deeper understanding of intelligent and sustainable electrical systems and building a firm knowledge base for further innovation This is a valuable resource for researchers engineers and professionals in the field of computer science and electrical engineering It offers state of the art research and useful solutions to those interested in creating and putting into practice intelligent and sustainable energy solutions

Handbook of Research on Advancements in the Processing, Characterization, and Application of Lightweight Materials Kumar, Kaushik,Babu, B. Sridhar,Davim, J. Paulo,2021-11-19 In the automotive industry the need to reduce vehicle weight has given rise to extensive research efforts to develop aluminum and magnesium alloys for structural car body parts In aerospace the move toward composite airframe structures urged an increased use of formable titanium alloys In steel research there are ongoing efforts to design novel damage controlled forming processes for a new generation of efficient and reliable lightweight steel components All these materials and more constitute today s research mission for lightweight structures They provide a fertile materials science research field aiming to achieve a better understanding of the interplay between industrial processing microstructure development and the resulting material properties The Handbook of Research on Advancements in the Processing Characterization and Application of Lightweight Materials provides the recent advancements in the lightweight mat materials processing manufacturing and characterization This book identifies the need for modern tools and techniques for designing lightweight materials and addresses multidisciplinary approaches for applying their use Covering topics such as numerical optimization fatigue characterization and process evaluation this text is an essential resource for materials engineers manufacturers practitioners engineers academicians chief research officers researchers students and vice presidents of research in government industry and academia

Machine Learning and Deep Learning in Real-Time Applications Mahrishi, Mehul,Hiran, Kamal Kant,Meena, Gaurav,Sharma, Paawan,2020-04-24 Artificial intelligence and its various components are rapidly engulfing almost every professional industry Specific features of AI that have proven to be vital solutions to numerous real world issues are machine learning and deep learning These intelligent agents unlock higher levels of performance and efficiency creating a wide span of industrial applications However there is a lack of research on the specific uses of machine deep learning in the professional realm Machine Learning and Deep Learning in Real Time Applications provides emerging research exploring the theoretical and practical aspects of machine learning and deep learning and their implementations as well as their ability to solve real world problems within several professional disciplines including healthcare business and computer science Featuring coverage on a broad range of topics such as image processing medical improvements and smart grids this book is ideally designed for researchers academicians scientists industry experts scholars IT professionals engineers and students seeking current research on the multifaceted uses and implementations of machine learning and deep learning across the globe

Trends in Language Teaching, Literature, Cultural Studies, and Linguistic Dr. P. Athahar,Dr. S. Mohankumar,Dr. R. Sriganesh,Dr. K. Shaheen ,Dr.

Saktheeswar V. B, This book titled Trends in Language Teaching Literature Cultural Studies and Linguistics embarks on a journey that transcends borders delves into the intricacies of language and celebrates the rich tapestry of human expression Language is more than mere communication it s a mirror reflecting our collective identity aspirations and cultural heritage As educators scholars and language enthusiasts we recognize that our field is ever evolving New methodologies emerge literary landscapes shift and cultural contexts shape our understanding of words and their power In this book we explore four interconnected domains Language Teaching How do we inspire language learners What innovative pedagogies foster fluency and cultural competence Our contributors share practical insights and theoretical frameworks Literature From timeless classics to contemporary voices literature invites us to explore the human condition We discuss trends genres and the transformative impact of storytelling Cultural Studies Culture is the heartbeat of language We delve into cultural nuances intercultural communication and the ways in which literature reflects societal shifts Linguistics The science behind language its structure evolution and sociolinguistic dimensions fuels our curiosity Linguists unravel mysteries and we follow their trail Within these chapters you ll encounter passionate educators and rigorous researchers Their voices harmonize creating a symphony of ideas We celebrate diversity of languages perspectives and methodologies Together let s navigate the currents of change guided by empathy curiosity and a shared love for language Thank you for joining us on this odyssey Advanced Engineering Optimization Through Intelligent Techniques Ravipudi Venkata Rao,Jan Taler,2024-10-14 This book comprises peer reviewed papers presented at the 4th International Conference on Advanced Engineering Optimization Through Intelligent Techniques AEOTIT 2023 The book combines contributions from academics and industry professionals and covers advanced optimization techniques across all major engineering disciplines like mechanical manufacturing civil electrical chemical computer and electronics engineering The book discusses different optimization techniques and algorithms such as genetic algorithm non dominated sorting genetic algorithm II and III particle swarm optimization gravitational search algorithm ant lion optimization dragonfly algorithm teaching learning based optimization algorithm grey wolf optimization Jaya algorithm Rao algorithms many other latest meta heuristic techniques machine learning algorithms and their applications Various multi attribute decision making methods such as AHP TOPSIS PROMETHEE desirability function SWARA R method BHARAT method Taguchi method fuzzy logic and their applications are also discussed This book serves as a valuable reference for students researchers and practitioners and helps them in solving a wide range of optimization problems **ICCCE 2020** Amit Kumar,Stefan Mozar,2020-10-11 This book is a collection of research papers and articles presented at the 3rd International Conference on Communications and Cyber Physical Engineering ICCCE 2020 held on 1 2 February 2020 at CMR Engineering College Hyderabad Telangana India Discussing the latest developments in voice and data communication engineering cyber physical systems network science communication software image and multimedia processing research and applications as well as communication technologies and other related technologies it includes

contributions from both academia and industry This book is a valuable resource for scientists research scholars and PG students working to formulate their research ideas and find the future directions in these areas Further it may serve as a reference work to understand the latest engineering and technologies used by practicing engineers in the field of communication engineering

Unveiling the Energy of Verbal Beauty: An Mental Sojourn through **Jntu Anantapur Btech Studymaterials**

In a global inundated with screens and the cacophony of instantaneous communication, the profound energy and emotional resonance of verbal artistry usually disappear in to obscurity, eclipsed by the continuous onslaught of noise and distractions.
