Lunch with friends frequent coffee breaks and easy living are things that come up only when you are working from home It s just like a dream come true for a person who wanted to enjoy life completely Having a cup of coffee from your own coffee maker simply boosts your energy levels Work at home many advantages but it has a simple rule that states that no work then no money Working at home doesn t mean that you have to enjoy your time only but you have to work also if you want to earn some money at the end You have to put some extra efforts in you work so that you can establish yourself as an expert Working from home is exciting and yes it s true that you may get lazy or flexible but if you don t work hard or market your skills then it would be very difficult for you to get stability in your life When you wanted to take a holiday you can easily do that if you wanted to set a higher salary level then you can also achieve that but the key is only the hard work and a desire to be a successful person in your field The ability to generate income while working at home is very exciting and attractive as well Many people are giving their resignations to their set office jobs just because they are attracted towards job at home The luxurious and flexible life is simply attracting them There are number of reasons which make working at home more attractive These reasons are simply arousing the urges of human being to enjoy their lives completely While working at home you can easily setup your schedule and can perform your tasks as per your mode You can easily eliminate your overhead expenses and increase your income levels The flexibility level that you enjoy while working at home is un comparable Working at home always give you a feeling of freedom which everyone wanted to enjoy **After the Pandemic** Randy Whitaker,2022-10-10

Many things define a job seeker experience education first impressions connections passion and the value you might bring to the company you wish to work for For decades the perceived ideal candidate would have all of the above most of the above however a good candidate would have a four year college degree To a great extent an employer still would like someone with a four year college degree However I believe this is changing The need for those who work with their hands and those who are willing to work their way up through the various levels of an organization is becoming more and more desired by companies The time it will take you to earn your degree you could be making a nice living and will have accrued zero debt in the process Plus after working in an industry of your choice something you do have an interest in even a passion for you may be on equal footing with a newly hired college grad based on the four years you have been working in your industry of choice as you continue to work your way up through the company You will find the more value you bring to a company the more they will look to you to assume great responsibility Typically the more responsibility the greater the paycheck What makes this book timely is the fact as COVID 19 winds down we are seeing many labor shortages in many areas and industries Now is the absolute best time to go to an industry experiencing a labor shortage or enter one of the numerous industries researched in this book and get yourself the job you always wanted without the cost and time involved with getting a four year college education I have nothing against getting a degree and there are still many fields where they

will always be mandatory however the trades service industries government railroads law enforcement plus many others will welcome you with open arms without the need for a four year degree I hope this book helps **Income from Home**
