Kipyego Cheluget, Stephen Wright, 2025-10-16 Kipyego Cheluget and Stephen Wright evaluate the legacy of Kenya s first president Jomo Kenyatta Following a nationalist uprising and brutal colonial repression Kenya became independent in December 1963 With much of the agricultural land still under European settler control Jomo Kenyatta promoted foreign and security policies to balance Kenyan African and settler interests attracting foreign investment into the new country Kenyatta

s programs however favored the West and established a growing need for British and American security guarantees to sustain Kenya in an increasingly unstable Eastern African region In this book Cheluget and Wright show that despite the growing pressures within Kenyan civil society for diversification of policies and redistribution of economic wealth Kenyatta consistently maintained pro western policies until his death in 1978 This book is split into 3 parts Part I discusses the growth of Kenyan nationalism the end of the colonial era and the birth of the Kenyan State Part II considers the political economy and development strategies of the Kenyan State Part III assesses the degree of continuity of the succeeding leadership portrayed from the Jomo Kenyatta presidency Through this detailed analysis the authors examine Kenyatta s policies and examine how successive Kenyan presidents have largely maintained his policies and venerated his legacy States, Scarcity, and Civil Strife in the Developing World Colin H. Kahl, 2018-06-05 Over the past several decades civil and ethnic wars have undermined prospects for economic and political development destabilized entire regions of the globe and left millions dead States Scarcity and Civil Strife in the Developing World argues that demographic and environmental stress the interactions among rapid population growth environmental degradation inequality and emerging scarcities of vital natural resources represents one important source of turmoil in today s world Kahl contends that this type of stress places enormous strains on both societies and governments in poor countries increasing their vulnerability to armed conflict He identifies two pathways whereby this process unfolds state failure and state exploitation State failure conflicts occur when population growth environmental degradation and resource inequality weaken the capacity legitimacy and cohesion of governments thereby expanding the opportunities and incentives for rebellion and intergroup violence State exploitation conflicts in contrast occur when political leaders themselves capitalize on the opportunities arising from population pressures natural resource scarcities and related social grievances to instigate violence that serves their parochial interests Drawing on a wide array of social science theory this book argues that demographically and environmentally induced conflicts are most likely to occur in countries that are deeply split along ethnic religious regional or class lines and which have highly exclusive and discriminatory political systems The empirical portion of the book evaluates the theoretical argument through in depth case studies of civil strife in the Philippines Kenya and numerous other countries The book concludes with an analysis of the challenges demographic and environmental change will pose to international security in the decades ahead Government Leaders, Military Rulers and Political Activists David W. Del Testa, 2014-01-27 In each volume an introductory essay outlines of history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives The biographies that follow are organized in an A Z format each biography is divided into a life section describing the individual s life and influences and a legacy section summarizing the impact of that individual s work throughout history These biographies cover a diverse group of men and women from around the globe and throughout history Franklin Delano Roosevelt Mao Tse tung and Genghis Khan are among the 200 well known historical figures included in this volume Examples

of other lesser known yet important individuals covered in this work are Gustavas Adolphus Swedish empire creator Hatshepsut queen of ancient Egyptian dynasty and Jean Jaur s French socialist leader and pacifist Each synopsis provides information on each individual s enduring impact on the common understanding of fundamental themes of human existence

The White Spaces of Kenyan Settler Writing Terrence L. Craig, 2017-03-27 The White Spaces of Kenyan Settler Writing provides an overview of Kenyan literature by white writers in the half century before Independence in 1964 Such literature has been overshadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period
