It allows readers to peek into their clinical filing cabinets and examine how they worked with diverse individuals from indigenous and migrant communities of Arab, Asian, European, Israeli, Latin American, and Caribbean, Persian, Russian, Sub-Saharan African, and North American origin. The book first reviews important foundations for working with diverse communities that include key knowledge, awareness, skills, and action orientation. It then provides a collection of cases for each cultural/geographic region. Each section begins with an introductory chapter to provide a bird's-eye view of the historical and current state of clinical and research practice of neuropsychology in that region. Then each chapter focuses on a specific community by providing surface and deep-level cultural background knowledge from the authors' unique perspectives. A case study is then covered in depth to practically showcase an evaluation with someone from that community. This is followed by a summary of key strategic points, lessons learned, references, further readings, and a glossary of culture-specific terminology used throughout the chapter. In the end, the appendix provides a list of culturally relevant tests and norms for some communities. This ground-breaking, peer-reviewed handbook provides an invaluable clinical resource for neuropsychologists, psychologists, and trainees. It increases self-reflection about multicultural awareness and knowledge, highlights practical ways to increase cultural understanding in neuropsychological and psychological assessments, and sparks further discussion for professional and personal growth in this area. *The Routledge Global History of Feminism* Bonnie G. Smith, Nova Robinson, 2022-02-21 Based on the scholarship of a global team of diverse authors, this wide-ranging handbook surveys the history and current status of pro-women thought and activism over millennia. The book traces the complex history of feminism across the globe, presenting its many identities, its heated debates, its racism, discussion of religious belief and values, commitment to social change, and the struggles of women around the world for gender justice. Authors approach past understandings and today's evolving sense of what feminism or womanism or gender justice are from multiple viewpoints. These perspectives are geographical to highlight commonalities and differences from region to region or nation to nation; they are also chronological, suggesting change or continuity from the ancient world to our digital age. Across five parts, authors delve into topics such as colonialism, empire, the arts, labor, activism, family, and displacement, as the means to take the pulse of feminism from specific vantage points, highlighting that there is no single feminist story but rather multiple portraits of a broad cast of activists and thinkers. Comprehensive and properly global, this is the ideal volume for students and scholars of women's and gender history, women's studies, social history, political movements, and feminism. *A Companion to Critical and Cultural Theory* Imre Szeman, Sarah Blacker, Justin Sully, 2017-09-25 This Companion addresses the contemporary transformation of critical and cultural theory with special emphasis on the way debates in the field have changed in recent

Mounk built his acclaimed scholarly career on being one of the first to warn of the risks that right wing populists pose to American democracy a danger that now remains as serious as ever But far from being mortal enemies the identitarian left and the populist right actually reinforce each other to vanquish one he shows here it is necessary to oppose both In *The Identity Trap* Mounk provides the most ambitious and comprehensive account to date of the origins consequences and limitations of wokeness He shows how postmodernism postcolonialism and critical race theory conquered many college campuses He lays out how these ideas gained tremendous influence in business media and government and he makes a nuanced philosophical case for why these ideas are so counterproductive and why universal humanist values can best serve the vital goal of true equality *The Identity Trap* provides truth and clarity where they are needed most
