movement and black women's movement have fought for much needed changes in women's health Merging ethnography with a historical analysis of policies and programs Caldwell offers a close examination of institutional and structural factors that have impacted the quest for gender and racial health equity in Brazil As she shows activists have played an essential role in policy development in areas ranging from maternal mortality to female sterilization Caldwell's insightful portrait of the public health system also details how its weaknesses contribute to ongoing failures and challenges while also imperiling the advances that have been made
