The Censorship Files Alejandro Herrero-Olaizola, 2012-02-01 Drawing on extensive research in the Spanish National Archive Alejandro Herrero Olaizola examines the role played by the censorship apparatus of Franco's Spain in bringing about the Latin American literary Boom of the 1960s and 1970s He reveals the negotiations and behind the scenes maneuvering among those involved in the Spanish publishing industry Converging interests made strange bedfellows of the often left wing authors and the staid officials appointed to stand guard over Francoist morality and to defend the supposed purity of Castilian Spanish Between these two uneasily allied groups circulated larger than life real world characters like the Barcelona publisher Carlos Barral and the all powerful literary agent Carmen Balcells The author details the fascinating story of how novels by Mario Vargas Llosa Guillermo Cabrera Infante Gabriel García Márquez and Manuel Puig achieved publication in Spain and in doing so reached a worldwide market This colorful account underpins a compelling claim that even the most innovative and aesthetically challenging literature has its roots in the economics of the book trade as well as the institutions of government and the exigencies of everyday politics and ideology

Collected Novellas Gabriel García Márquez, 1999-09-22 Renowned as a master of magical realism Gabriel García Márquez has long delighted readers around the world with his exquisitely crafted prose Brimming with unforgettable characters and set in exotic locales his fiction transports readers to a world that is at once fanciful haunting and real Leaf Storm Gabriel García Márquez's first novella introduces the mythical village of Macondo a desolate town beset by torrents of rain where a man must fulfill a promise made years earlier No One Writes to the Colonel is a novella of life in a decaying tropical town in Colombia with an unforgettable central character Chronicle of a Death Foretold is a dark and profound story of three people joined together in a fatal act of violence

Thomson,2001-01-24 The Distant Relation breaks down the artificial division between philosophy and literature by weaving contemporary philosophic arguments through close readings of Carpentier Rulfo Paz and Garcia Marquez Thomson draws the reader into the largely uninhabited space between philosophy and literature providing new critical strategies that allow text and reader to respond to the very distance they share These strategies involve a reconceptualization of distance that recognizes the productive and affirmative nature of separation The Distant Relation will attract anyone interested in the ongoing struggle to overcome conventional interpretations of language time and identity within the broader context of philosophical trends and Spanish American studies **Identity and Translation Trouble** Ivana Hostová,2017-08-21 Besides providing a thorough overview of advances in the concept of identity in Translation Studies the book brings together a variety of approaches to identity as seen through the prism of translation Individual chapters are united by the topic and their predominantly cultural approach but they also supply dynamic impulses for the reader since their methodologies level of abstraction and subject matter differ The theoretical impulses brought together here include a call for the ecology of translational attention a proposal of transcultural and farcical translation and a rethinking of Bourdieu s habitus in terms of Franti ek Miko s experiential complex The book also offers first hand insights into such topics as post communist translation practices provides sociological insights into the role politics played during state socialism in the creation of fields of translated fiction and the way imported fiction was able to subvert the intentions of the state gives evidence of the struggles of small locales trying to be recognised though their literature and draws links between local theory and more widely known concepts **Gabriel García Márquez** Jay Corwin,2016-08-29 Gabriel Garc a M rquez is considered one of the most significant authors in the Spanish language Rising to prominence with One Hundred Years of Solitude his fiction is widely read and studied throughout the world This invaluable Guide gives a wide ranging but in depth survey of the global debate over Garc a M rquez s fiction It explores the major critical responses to his key works devoting two whole chapters to One Hundred Years of Solitude It also examines Garc a M rquez s lesser known short fiction his place in the Boom magical realism and his influence on other writers Jay Corwin discusses both European and US centric interpretations balancing these with indigenous and Hispanic contexts to

Brushwood,2014-07-03 In The Spanish American Novel John S Brushwood analyzes the twentieth century Spanish American novel as an artistic expression of social reality In relating the generic history of the novel to extraliterary events in Spanish America he shows how twentieth century fiction sets forth the essence of such phenomena as the first Peruvian regime the Mexican Revolution the Che Guevara legend indigenismo and the strongman political type In essence he views the novel as art rather than as document but not as art alienated from society The discussion is organized chronologically opening with the turn of the century and focusing on novels from 1900 to 1915 that exemplify various aspects of the nineteenth century literary inheritance Brushwood then highlights the avant garde fiction influenced by Proust and Joyce of the 1920s as a precursory movement to the new Latin American novel a phenomenon that came into its own during the 1940s He then examines the boom in Spanish American fiction the period of extensive international recognition of certain works which he dates from 1962 or 1963 In each era considered the development of the novel is placed in dual perspective One view that of particularly significant novels in light of others published during the same year is a cross section of the genre at one particular moment The second view that of a panorama of novels published in intervals between significant moments in the history of the novel is more general and selective in the number of books discussed Combining the historical with the analytical approach the author proposes that the experience of a novel in which reality has been transformed into art is essential to our understanding of that reality

A Companion to Gabriel García Márquez Raymond L. Williams, 2010 This book offers discussion and analysis of the subtle writing of Nobel Laureate Gabriel García Márquez a traditionalist who draws from classic Western texts a Modernist committed to modernizing the conservative literary tradition in Colombia and Latin America an internationally recognized major writer of the 1960s Boom the key figure in popularizing what has been called magic realism and finally a Modernist who has occasionally engaged in some of the strategies of the postmodern The author demonstrates that García Márquez is above all a committed and highly accomplished Modernist fiction writer who has successfully synthesized his political vision in his writing and absorbed a vast array of cultural and literary traditions Drawing on García Márquez's interviews with Williams and others over the years the book also explores the importance of the non literary the presence of oral tradition and the visual arts thus providing a more complete insight into García Márquez's strategies as a Modernist with heterogeneous aesthetic interests as well as an understanding of his social and political preoccupations RAYMOND LESLIE WILLIAMS is Professor of Latin American Literature at the University of California Riverside

The Twentieth-Century Spanish American Novel Raymond Leslie Williams, 2009-07-21 A Choice Magazine Outstanding Academic Book Spanish American novels of the Boom period 1962 1967 attracted a world readership to Latin American literature but Latin American writers had already been engaging in the modernist experiments of their North American and European counterparts since the turn of the twentieth century Indeed the desire to be modern is a constant preoccupation in twentieth century Spanish American literature and thus a very useful lens through which to view the century's novels In this pathfinding study Raymond L Williams offers the first complete analytical and critical overview of the Spanish American novel throughout the entire twentieth century Using the desire to be modern as his organizing principle he divides the century's novels into five periods and discusses the differing forms that the modern took in each era For each period Williams begins with a broad overview of many novels literary contexts and some cultural debates followed by new readings of both canonical and significant non canonical novels A special feature of this book is its emphasis on women writers and other previously ignored and or marginalized authors including experimental and gay writers Williams also clarifies the legacy of the Boom the Postboom and the Postmodern as he introduces new writers and new novelistic trends of the 1990s
