Colloquies Desiderius Erasmus, 1997-01-01 Erasmus Familiar Colloquies grew from a small collection of phrases sentences and snatches of dialogue written in Paris about 1497 to help his private pupils improve their command of Latin Twenty years later the material was published by Johann Froben Basel 1518 It was an immediate success and was reprinted thirty times in the next four years For the edition of March 1522 Erasmus began to add fully developed dialogues and a book designed to improve boys use of Latin and their deportment soon became a work of literature for adults although it retained traces of its original purposes The final Froben edition March 1533 had about sixty parts most of them dialogues It was in the last form that the Colloquies were read and enjoyed for four centuries For modern readers it is one of the best introductions to European society of the Renaissance and Reformation periods with lively descriptions of daily life and provocative discussions of political religious social and literary topics presented with Erasmus's characteristic wit and verve Each colloquy has its own introduction and full explanatory historical and biographical notes Volumes 39 and 40 of the Collected Works of Erasmus series Two volume set **La Magnifique Histoire Du Jeu de Paume, Etc** Albert de LUZE, 1933

*French Theatre in the Neo-classical Era, 1550-1789* William D. Howarth, 1997-06-05 This 1997 book covers the period which saw the establishment in France of a centralized official theatre not only the Com die Fran aise the first national theatre but an Italian theatre and a state opera the often subversive independent theatres are also discussed Nearly 1 000 documents deal with censorship and other aspects of external control company management the acting profession dramatic theory and criticism theatre architecture settings and costumes audience composition and behaviour Over 120 pictorial documents architectural drawings technical engravings frontispieces portraits etc provide a visual dimension where relevant A full linking narrative and a copious bibliography help to make this an important reference work and a valuable research tool *Sports and Physical Exercise in Early Modern Culture* Rebekka von Mallinckrodt, Angela Schattner, 2017-05-15 It is often assumed that a recognisably modern sporting culture did not emerge until the eighteenth century The plethora of physical training and games that existed before 1700 tend to fall victim to rigid historical boundaries drawn between modern

and pre modern sports which are concerned primarily with levels of regulation organization and competitiveness Adopting a much broader and culturally based approach the essays in this collection offer an alternative view of sport in the early modern period Taking into account a variety of competitive as well as non competitive forms of sport physical training and games the collection situates these types of activities as institutions in their own right within the socio cultural context of early modern Europe Treating the period not only as a precursor of modern developments but as an independent and formative era the essays engage with overlooked topics and sources such as court records self narratives and visual materials and with contemporary discussions about space gender and postcolonial studies By allowing for this increased contextualization of sport the collection is able to integrate it into more general historical questions and approaches The volume underlines how developments in early modern sport influenced later developments whilst at the same time being thoroughly shaped by contemporary notions of the body status and honour These notions influenced not only the contemporary sporting fashion but the adoption of sports in elite education the use of sports facilities training methods and modes of competition thus offering a more integrated idea of the place of sport in early modern society

sport and its ever changing social cultural political and economic context and impact The themes covered in each volume are the purpose of sport sporting time and sporting space products training and technology rules and order conflict and accommodation inclusion exclusion and segregation minds bodies and identities representation Alessandro Arcangeli is Associate Professor at the University of Verona Italy Volume 3 in the Cultural History of Sport set General Editors Wray Vamplew Mark Dyreson and John McClelland

*Playing at Monarchy* Corry Cropper, 2008-01-01 *Playing at Monarchy* looks at the ways sports and games tennis fencing bullfighting chess trictrac hunting and the Olympics are metaphorically used to defend and subvert to praise and mock both class and political power structures in nineteenth century France Corry Cropper examines what shaped these games of the nineteenth century and how they appeared as allegory in French literature in the fiction of Balzac M r rim r e and Flaubert and in newspapers historical studies and even game manuals Throughout he shows how the representation of play in all types of literature mirrors the most important social and political rifts in postrevolutionary France while also serving as propaganda for competing political agendas Though its focus is on France *Playing at Monarchy* hints at the way these nineteenth century developments inform perceptions of sport even today

Stagestruck Lauren R. Clay, 2013-01-11 *Stagestruck* traces the making of a vibrant French theater industry between the reign of Louis XIV and the French Revolution During this era more than eighty provincial and colonial cities celebrated the inauguration of their first public playhouses These theaters emerged as the most prominent urban cultural institutions in prerevolutionary France becoming key sites for the articulation and contestation of social political and racial relationships Combining rich description with nuanced analysis based on extensive archival evidence Lauren R Clay illuminates the wide ranging consequences of theater s spectacular growth for performers spectators and authorities in cities throughout France as well as in the empire s most important Atlantic colony Saint Domingue Clay argues that outside Paris the expansion of theater came about through local initiative civic engagement and entrepreneurial investment rather than through actions or policies undertaken by the royal government and its agents Reconstructing the business of theatrical production she brings to light the efforts of a wide array of investors entrepreneurs directors and actors including women and people of color who seized the opportunities offered by commercial theater to become important agents of cultural change Portraying a vital and increasingly consumer oriented public sphere beyond the capital *Stagestruck* overturns the long held notion that cultural change flowed from Paris and the royal court to the provinces and colonies This deeply researched book will appeal to historians of Europe and the Atlantic world particularly those interested in the social and political impact of the consumer revolution and the forging of national and imperial cultural networks In addition to theater and literary scholars it will attract the attention of historians and sociologists who study business labor history and the emergence of the modern French state

**A History of Sport in Europe in 100 Objects** Daphné Bolz, Michael Krüger, 2023-04-27 Modern sport originated in Europe During the age of Enlightenment gymnastics and athletics from Antiquity were rediscovered and changed into new cultural and educational forms which shaped both the body and the mind The industrialisation of Britain and Europe eventually introduced organisational patterns that gave sport not only a name but also a new structure This was a distinctive product of European civilisation which spread across the modern world The 100 objects that are collected here are both material objects and forms of communication which explore the transformation and diversity of sports games and physical education in Europe whether for training performing or as part of other forms of celebration or festivity This book is the first attempt to create a kaleidoscopic history of European sport through its rich material culture and emerged from a desire to develop transnational research in sports history 110 authors from 39 countries have participated in a genuinely pan European project introducing the reader to the fascinating range of people institutions and places which made up the world of modern European sport

The First Frame Pannill Camp, 2014-12-04 In the late eighteenth century a movement to transform France's theatre architecture united the nation Playwrights philosophers and powerful agents including King Louis XV rejected the modified structures that had housed the plays of Racine and Molière and debated which playhouse form should support the future of French stagecraft In The First Frame Pannill Camp argues that these reforms helped to lay down the theoretical and practical foundations of modern theatre space Examining dramatic theory architecture and philosophy Camp explores how architects dramatists and spectators began to see theatre and scientific experimentation as parallel enterprises During this period of modernisation physicists began to cite dramatic theory and adopt theatrical staging techniques while playwrights sought to reveal observable truths of human nature Camp goes on to show that these reforms had consequences for the way we understand both modern theatrical aesthetics and the production of scientific knowledge in the present day
