La Scienza Dei Magi Kremmerz:

La scienza dei magi Giuliano Kremmerz, 1991 **The Hermetic Physician** Marco Daffi, 2022-09-20 Explores Kremmerz's life, his teachings, his work as a hermetic physician, and the metaphysical and hermetic principles that guided his activities. Offers a detailed account of the distance healing practices, diagnostic methods, and rituals of the Fraternity of Myriam. Includes texts written by Kremmerz on the inner workings and magical operations of the fraternity intended for its practicing members. Giuliano Kremmerz (1861-1930), born in Formisano, was one of the most influential Italian occultists, alchemists, and Hermetic masters of the late nineteenth and early twentieth centuries, though he remains almost unknown to English readers. In 1896, Kremmerz began writing about natural and divine magic, healing, and alchemy through the journal *Il Mondo Segreto* (The Secret World). At the same time, he founded a school known as the *Schola Philosophica Hermetica Classica Italica*, as well as a magical group, the Therapeutic and Magical Fraternity of Myriam. Within the Myriam, he sought to use Hermetic magical and Pythagorean principles to harness the power of the psyche and convey collective energies for therapeutic purposes and distance healing. His initiatic order would become the principal esoteric society in Italy, comparable to its British counterpart, the Hermetic Order of the Golden Dawn, but forced to be a carefully guarded secret as Mussolini's government rose to power. In this unique compilation of essays, David Pantano presents an in-depth study of Kremmerz's life and work by his student and initiate, Italian esotericist Marco Daffi. Without holding back criticism, Daffi provides a detailed account of the history and practices of the Myriam, as well as the metaphysical and Hermetic principles that guided their activities. Revealing Kremmerz's rediscovery of the occult healing of ancient mystery schools, Daffi also shows how Kremmerz laid the foundation for passing this initiatory tradition on to the new millennium. He explores the means by which Kremmerz said miracles can be performed and the way Hermetic forces affect both bodily health and mystical eroticism. Throughout this collection, David Pantano provides extensive annotations, offering the English reader essential historical and mystical context for Daffi's work. Connecting to untranslated Italian texts and elucidating Daffi's poetic style, Pantano's commentary reveals the particular tradition of Italian esoterism. Pantano also includes rare and unpublished texts written by Kremmerz and intended for the Myriam's practicing members. Combined, these papers offer a picture of the inner workings and magical operations of this fraternity, available for the first time in English. *Alchemical Hermeticism* David Pantano, 2025-01-28 Presents Daffi's writings on unique and unusual experiences from five decades of alchemical and hermetic practice, available for the first time in English. Offers a view of Daffi's Inner Laboratory and his pioneering investigations into consciousness, past life regression, Hermetic healing, and divination. Offers a psychological portrait of Daffi through writings by initiates, artists, and scholars who knew or had firsthand knowledge of the Baron. Following the path set by renowned alchemist Giuliano Kremmerz, Marco Daffi was one of the most interesting and controversial protagonists of magical Hermeticism in the 20th century, a master initiate who illuminated the more esoteric aspects of Hermetic practice in terms of initiation, gnosis,

eros divination and consciousness In this comprehensive look at the man born Baron Ricciardo Ricciardelli yet better known by his spiritual name of Marco Daffi historian and researcher David Pantano presents Daffi s writings on some of the most unique and unusual topics within alchemical Hermeticism available for the first time in English Through his visionary writings Daffi elucidates firsthand accounts of initiatory experience and the inner visions of Hermetic practices supported by relevant experiential praxis Readers are able to enter Daffi s Inner Laboratory and experience his pioneering investigations into the numinal or interdimensional aspects of consciousness Daffi details the descensus ad inferno he took into the dark cavernous recesses of past life regression for purposes of Hermetic healing His writings also reveal his practical applications of oracular modes of consciousness especially by exercising his considerable mediumistic capabilities Exploring the more human side of Daffi that influenced his work Pantano shares biographical information and writings from initiates artists and scholars who knew of the Baron These never before translated writings provide context and additional depth for the insights that permeate Daffi s alchemical and magical work and philosophy Pantano also includes Daffi s own account of the infamous Trial of the Magus which pitted him against the grandson of his teacher Giuliano Kremmerz at the height of Italy s fascist era Providing an inside view of the magus at work a glimpse into the far reaching spiritual horizon of a man who explored the depths of the astral realm and the most occult aspects of alchemy and Hermeticism this book allows the reader to see with an initiate s eyes the kaleidoscopic prism of Daffi s expansive vision of reality
