**The Lost Hunters: a Story of Wild Man and Great Beasts** Joseph A. ALTSHELER, 1934      *The Lost Hunters* Joseph Alexander Altsheler, 1920 The Lost Hunters is the second volume of the Great West Series of which The Great Sioux Trail was the first In this story young Will Clarke who has long been a captive among the Sioux and who has risen to high favor has become Sioux himself not only in manners and customs but in thought The world is clothed for him in a new atmosphere and he believes with the Indians that good and evil spirits fill air earth and water in truth all things Hence his eye and mind in this story are the eye and mind of the Sioux It is well known that bear deer and wolf grow much larger in the great valleys of far Northwestern Americans than anywhere else in the world and it may be possible that still more gigantic specimens will yet be found in remote regions The struggle of primeval man with wild beasts carried on for ages is here reproduced in the advent of the Sioux warriors among them armed only with bow and arrow The names applied to animals and inanimate objects in this book are note the coinage of the author but are those used by the Sioux Foreword      *The Lost Hunters* Joseph Alexander Altsheler, 1946      **Lost Hunters: a Story of Wild Man and Great Beasts** Joseph A. Altsheler, 2015-12-14 Book two The lost Hunters A story of wild man and great beasts The new start was made the next morning Capa s shoulder now being well on the way to recovery and further delay being a waste of time The forest into which they entered was unlike those they had left It had the aspects of a vast northern jungle The trees were large but the soil was so deep and black that the undergrowth was astonishing in its extent and thickness They made their way in the usual single file through a vast and intricate tangle of vines bushes and creeping briars The air was heavy with the odor of bloom and they wondered at and admired the extraordinary display of vegetable and arboreal life but neither Roka nor Pehansan trusted it They knew that the great animals seeking their lives would find splendid ambush in these green depths While the young warriors rejoiced at what they saw the two older men were wary and apprehensive      [Secret Stories of Lost Beasts](#) Saskia Gwinn, Vasilisa Romanenko, 2025-05-22 The secret lives and amazing adaptations of past creatures are revealed in this beautifully illustrated compendium of Earth s long gone beasts Buried far beneath the ground are secret stories of ancient lands Stories from a time when dinosaurs with tails as big as whales towered over trees birds had teeth and super fast sharks with saws for jaws swam through oceans and seas Earth s amazing animals may be lost in time but they are no longer forgotten From dinosaurs and sea beasts to giant bugs birds and Ice Age mammals these spectacular species were once to be seen stomping roaring soaring and crawling across land sky and sea but are now extinct and lost forever In this beautifully illustrated follow up to Secret Stories of Nature you can uncover the fascinating histories of Earth s most astounding extinct animals from iconic beasts such as Tyrannosaurus rex the woolly mammoth and the dodo to jaw dropping creatures such as a dragonfly relative the size of a pigeon and a tiny sea beast that looked like a cartoon character When did giant bugs zoom through the skies and how did these creepy crawlies become so colossal Which dinosaurs had feathers and why is T rex the most famous dinosaur

of all time How did mammals survive the giant asteroid Which extinct animal had a boomerang shaped head and which one was a mishmash of a bird pig crocodile and armoured armadillo The answers to these secrets are waiting for you within You ll discover how scientists past and present have used research observation and fossil records to piece these stories together and unravel their secrets Intriguingly some secrets are yet to be revealed while others are rewritten when exciting new information changes what we think we know As well as discovering ancient animals you can learn about beautiful beasts that have sadly been lost in recent years but also the remarkable stories of animals once thought to be extinct but which have been rediscovered Finally at the back of the book you can learn how to help protect creatures that are critically endangered and their habitats We can all work together to preserve our beautiful planet and its rich biodiversity The fascinating text from children s author Saskia Gwinn is brought to life by gorgeously detailed vintage style artwork from Vasilisa Romanenko making this a perfect gift book for the whole family to share
