Creative Technologies for Multidisciplinary Applications Connor, Andy M.,2016-03-29 Given that institutions of higher education have a predisposition to compartmentalize and delineate areas of study creative technology may seem oxymoronic On the contrary the very basis of western thought is found in the idea of transcendent knowledge The marriage of opposing disciplines therefore acts as a more holistic approach to education Creative Technologies for Multidisciplinary Applications acts as an inspiration to educators and researchers who wish to participate in the future of

such multidisciplinary disciplines Because creative technology encompasses many applications with the realm of art gaming the humanities and digitization this book features a diverse collection of relevant research for the modern world It is a pivotal reference publication for educators students and researchers in fields related to sociology technology and the humanities

Translation and Interpretation Raul Calzoni, Francesca Di Blasio, Greta Perletti, 2022-08-08 A volume in honour of Angela Locatelli The book explores the significance of literary translation and interpretation in the widest sense of terms as multiple processes of meaning and cultural transfer by investigating how and why literature can be considered as a repository and a disseminator of knowledge and values Featuring essays by a number of scholars focusing on a wide range of literary and critical texts of different nations and cultures and encompassing the last three centuries this book intends to offer a contribution to the study of translation and interpretation as literary processes of cultural and epistemic dissemination of knowledge from both a theoretical and a practical perspective
