The Louisiana School for Math, Science, and the Arts Dr. Bill Ebarb, 2015-12-16 The Louisiana School was created by state law to challenge academically and artistically gifted high school students from throughout Louisiana. It was the second such residential school in the nation and served as a model for the creation of similar schools in other states. This is the story of the students, instructors, staff, and others who created and have continued the school against tough odds and continuing budget cuts. It presents the chronological history, a summary of many of the accomplishments that led to international recognition, and a look into the culture that can only be found at the Louisiana School. *Place Name Changes*, 2004

*Louisiana "Jography": A Fun Run Through Our State* Carole Marsh, 2011-03-01 Louisiana Geography Statistics say most kids know less geography than ever. Don't let that apply to your students. Start by making sure kids know the main places, geographic features in their own state. Give them activities that pretend they are taking a cross state bike tour using free football game passes, jogging through the state, etc. They'll find their way around in a hurry. Geography activities include information on counties, rivers, museums, historic places, sites of interest, colleges bordering states, climate, topography, crops, and more. All ready to reproduce. Approximately 30 activities and 200 geography related places and facts are covered. Students work alone or in groups and use maps, reference books, or resource people to complete challenging riddles, matching games, word searches, fill in lists, scavenger hunts, and completion exercises that reinforce learning, sharpen research skills, and provide a lively introduction to Louisiana. *Directory of Awards* National Science Foundation (U.S.).
