Jeet Kune Do JKD, which translates as the way of the intercepting fist, was developed over a number of years by Bruce Lee as an anti-thesis to what he saw as the formulaic straightjacket of the classical martial arts, which he argued failed to allow individuals to fully and honestly express themselves. However, as Cass Magda points out in his Foreword, JKD is definitely not a do-it-yourself martial art, and it does

have a unique structure Indeed it is essential for the JKD fighter to master this structure if he or she is to present a highly organized defence and mount an instantaneous and effective counter attack AUTHOR Dave Carnell is the owner and Director of Impact Martial Arts Academy in Stoke on Trent England which has several branches throughout the country Dave is a much sought after instructor who teaches in the United Kingdom elsewhere in Europe and in the United States Dave is a Senior Full Instructor for Cass Magda s MI Association and is Supervising Instructor for the United Kingdom

Essential Jeet Kune Do Tim Tackett,2019-06-10 This book will serve way to decide what will work the best for you and what aspects of JKD you need to keep as well as throw away I feel that it would be impossible to learn this from your instructor as he will mainly focus on what works best for him I have been fortunate to have learned from many of the senior students of Bruce Lee and have noticed that they all focus on certain things and not on what some the others are doing For some it may be the boxing aspects For some it may be footwork For others it was trapping energy and the Wing Chun elements It was only when we started focusing on the Western fencing aspects of JKD that I was able to understand and focus on what has become my essence of JKD Of course an instructor cannot just hand you what will become your essence or foundation of your own JKD This is something that you must discover for yourself as you work to become more a more efficient JKD practitioner The purpose of this book is too show you most of what we teach in my garage and the basic principles behind each Once you have worked on these you will come to realize what will work for you and what will not Some of you will want to focus on distance and footwork Others will feel comfortable crashing the line Whatever works for you is the main thing Just use the book as guideline to discover your own essential JKD
