Donn,2016-10-04 The 9 11 attacks brought large scale violence into the 21st century with force and have come to epitomize the entanglement of intimate vulnerability and virtual spectacle that is typical of the globalized present This book works at the intersection of trauma studies affect theory and literary studies to offer radically new interpretive frames for interrogating the challenges inherent in representing the initial moments of the terrorist encounter Beyond the paradigm of traumatic unspeakability post 9 11 texts expose the materiality of the human body in its universal vulnerability The intersubjective empathy this engenders is politically subversive as it undermines the discourse of historical singularity and exceptionalism by establishing a global network of reference and dialogue Innovative theoretical interconnections between clinical pathology concepts of cultural trauma and political aesthetics lay the foundations for exploring formally and

geographically diverse texts Close readings of works by Jonathan Safran Foer Art Spiegelman Don DeLillo and William Gibson map the relationship between representations of 9 11 and complex aspects of trauma theory This detailed approach makes a case for revisiting trauma theory and bringing its Freudian origins into the digitized present It showcases trauma as a physical and psychological wound as well as an experience that is simultaneously pre discursive and inhibited by the virtuality of the present day real Exploring how contemporary trauma studies can take into account the digitization and virtuality of present day realities this book is a key intervention in establishing a contemporary ethics of witnessing terror

Jenseits des Lustprinzips Sigmund Freud,2017-11-17 In der psychoanalytischen Theorie nehmen wir unbedenklich an dass der Ablauf der seelischen Vorgänge automatisch durch das Lustprinzip reguliert wird das heißt wir glauben dass er jedes Mal durch eine unlustvolle Spannung angeregt wird und dann eine solche Richtung einschlägt dass sein Endergebnis mit einer Herabsetzung dieser Spannung also mit einer Vermeidung von Unlust oder Erzeugung von Lust zusammenfällt

Jenseits des Lustprinzips von Sigmund Freud Andrea Schikowitz,2008-09-12 Studienarbeit aus dem Jahr 2003 im Fachbereich Politik Politische Theorie und Ideengeschichte Note 1 00 Universität Wien Institut für Politikwissenschaft Veranstaltung Psychoanalyse als Methode der Ideengeschichte Sprache Deutsch Abstract Ich möchte mich in der vorliegenden Arbeit auf Freuds Herleitung eines Todestriebes und dessen Gegenüberstellung zu den Lebenstrieben beschränken Die zweifellos hochinteressanten Abschnitte über die Natur des Todes und die Herkunft der Sexualität werde ich daher nicht behandeln Mein Ziel besteht darin Freuds Argumentationslinie nachvollziehbar zu machen und gleichzeitig die darin enthaltenen Brüche sichtbar zu machen Ich gehe davon aus dass Freud bestimmte Annahmen a priori voraussetzt ohne sie zu belegen Ohne diese Vorannahmen würde Freud am Ende wahrscheinlich nicht zu seinem Ergebnis kommen Ich möchte mir jedoch auf keinen Fall anmaßen ein Urteil über den Todestrieb zu fällen die vorliegende Arbeit versteht sich lediglich als Versuch einer Analyse von Freuds Argumentationslinie Meine Ausgangsfrage lautet also An welchen Stellen sind Brüche in der Argumentationslinie zur Herleitung eines Todestriebes vorhanden und welche Vorannahmen werden an diesen Stellen getroffen

Phenomenology of Anxiety Stefano Micali,2022-03-30 This volume offers a thorough description of anxiety from a phenomenological perspective Building on Bakhtin's insights the author develops the method of phenomenological polyphony which can do justice to the essential ambiguity of anxiety In this polyphony the voices of Kierkegaard Husserl Freud Blumenberg Heidegger Sartre Adorno Derrida and Levinas are particularly recognizable The book explores new perspectives on the complex relation between anxiety fear and trauma with reference to different disciplines from art history to cultural anthropology from psychopathology to theology from literature to political philosophy When is anxiety justified When does anxiety cease to function as an effective and reasonable signal preventing imminent threats and when does it become an invasive projection of our own ghosts This volume presents a deep philosophical inquiry into the affective phenomenon that can both protect us from danger and be a danger in itself Moreover the author explores the relevance of

anxiety in the context of philosophical anthropology In various theoretical frameworks the difference between anxiety and fear serves as a criterion for distinguishing human beings from animals in particular Accordingly research on anxiety is crucial for defining human nature as such The analysis presented in this volume shows how an alteration of the dimensions of embodiment time consciousness and phantasy takes place in anxiety Furthermore the author elaborates on new categories for understanding of anxiety such as quasi intentional imaginative anticipation which eludes the traditional differentiation between perception and imagination The work culminates in a phenomenological analysis of five essential traits of anxiety 1 its quasi intentional imaginative anticipation 2 its negative inspiration 3 the recurrence of bodily manifestations 4 the interlocution with an alien power 5 its negative teleology

The Psychopathology of American Capitalism Thomas Paul Bonfiglio, 2017-06-08 This book synthesizes psychoanalytic and Marxist techniques in order to illuminate the resistance to a socialization of the American economy the protectionist discourses of anomalous American capitalism and the suppression of the capitalist welfare state After the Second World War Democrats and Republicans effectively eliminated the communist and socialist parties from the American political spectrum and suppressed their allied labor movements The right wing shift of both parties fabricated a false opposition of left and right that does not correspond to political oppositions in the industrialized democracies Marxist perspectives can account for the massive inequality of the political economy but they are insufficient for illuminating its preservation Psychoanalysis is necessary in order to explain why Americans continue to vote within a two party system that neglects the lower classes and why the working class tends to vote against its own interests The psychoanalytic techniques employed include doubling repetition displacement condensation inversion denial fetishizing and cognitive repression In examining the fixation upon the proxy binary of Democrat vs Republican which suppresses the true opposition of left vs right and neutralizes alternatives the work analyses numerous contemporary political issues through applications of Marxist psychoanalytic theory

Family Constellations in Contemporary Ibero-American and Slavic Literatures Anna Artwińska, Ángela Calderón, Jobst Welge, 2024-10-07 This volume examines Ibero American as well as Slavic literatures of the 21st century and studies how historical imaginaries in family narratives are functionalized for both individual and collective and post national identities The analysis proceeds along three conceptual axes What these narratives have in common is that they construct specific constellations of the historical imagination and of family whereby family is here conceived not so much as an organic micro unity but rather as changing multiple relations between individual members godparents first and second degree relatives non blood related family members present and absent members adopted children etc Furthermore these novels are often grounded in trans generational memories They are written by members of a generation that as a rule did not directly experience these historical events It is also significant that these narratives are no longer conceived as representing national identities but paradigmatically speak for a collective that defines itself in regional ethnic religious or ideological terms It seems therefore that these narratives of family constellations are in

need of more flexible typological rubrics and interpretive frameworks Intended as a sustained comparative study of these family narratives this volume is a contribution in understanding how historical caesura experiences and their literary representation work on the self understanding of the present *Gaudí i la quinta potència. La filosofia d'un art. (eBook)* Carles Rius Santamaria,2014-11-05 La fascinació que desperta l'obra de Gaudí s'observa en gran mesura a l'enigmàtic simbolisme de les seves formes plenes de significats múltiples i filosòfics a vegades difícils de copsar per l'observador perquè si el llum quan s'analitzen a la llum de certs corrents de pensament molt influents en l'art del segle XIX i principi del XX Centrat en l'estudi de la Casa Bellesguard i el Temple de la Sagrada Família aquest llibre obre nous camins per interpretar el simbolisme gaudini a partir dels vincles existents entre l'obra de l'arquitecte català i la del pintor alemany Peter Lenze que alhora cal emmarcar en el context global de la doctrina de les potències de Schelling Adre a tant a especialistes com al gran públic Gaudí i la quinta potència La filosofia d'un art no només amplia els coneixements i la documentació sobre l'univers creatiu de Gaudí sin que contribueix a enriquir la percepció de la seva obra *Handbook of Ecocriticism and Cultural Ecology* Hubert Zapf,2016-05-10 Ecocriticism has emerged as one of the most fascinating and rapidly growing fields of recent literary and cultural studies From its regional origins in late twentieth century Anglo American academia it has become a worldwide phenomenon which involves a decidedly transdisciplinary and transnational paradigm that promises to return a new sense of relevance to research and teaching in the humanities A distinctive feature of the present handbook in comparison with other survey volumes is the combination of ecocriticism with cultural ecology reflecting an emphasis on the cultural transformation of ecological processes and on the crucial role of literature art and other forms of cultural creativity for the evolution of societies towards sustainable futures In state of the art contributions by leading international scholars in the field this handbook maps some of the most important developments in contemporary ecocritical thought It introduces key theoretical concepts issues and directions of ecocriticism and cultural ecology and demonstrates their relevance for the analysis of texts and other cultural phenomena **Reimagined Communities** Ryszard Bartnik,Leszek Drong,Liliana Sikorska,2024-12-09 These contributions offer fundamental insights into how literary works address and reconceptualize issues of nationalism groupism belonging and denationalization in selected European contexts Various critical perspectives are employed here to highlight modern social and political processes as registered and to a certain extent also fashioned by contemporary literary discourses Reimagined communities emerge from literary redescriptions of existing or imaginary sociopolitical configurations in several European states or regions All the contributions share a heightened sensitivity to the individual as enmeshed in oppressive geopolitical circumstances Thereby literary expressions of how individuality is constrained by social pressures may offer inspiring blueprints for emancipation *The Fascism of Ambiguity* Marcia Cavalcante Schuback,2022-08-25 This book contributes to the work of elucidating the new forms of fascism and authoritarianism that arise today in intimate relation with new mediatic and information technologies It presents elements of the connection

between capitalism and fascism and makes clear how fascism today uses the ambiguity of senses and meanings as its most efficient way of infiltrating our reality and thereby becoming unequivocal The fascism of ambiguity is a fascism that grows the more the ambiguities and paradoxical dimensions of the contemporary situation become explicit It departs from some lessons of history regarding both historical fascism and some of the main critical lines and thoughts produced in the beginning of the 20th Century It shows what is new in today's form of fascism discussing its connection to technomediatic capitalism to the dynamics of emptying meanings and senses through a technique of rendering them ambiguous and exacerbated It outlines some guiding thoughts regarding the question of ambiguity and metapolitics today and concludes by proposing two exercises of precision through the lenses of poetry and music as a way to resist and counteract the fascist metapolitics of the ambiguity of meanings and senses

Vibrant Death Nina Lykke, 2021-12-16 *Vibrant Death* links philosophy and poetry based corporeally grounded knowledge seeking It offers a radically new materialist theory of death critically moving the philosophical argument beyond Christian and secular mechanistic understandings The book's ethico-political figuration of vibrant death is shaped through a pluriversal conversation between Deleuzian philosophy, neovitalist materialism and the spiritual materialism of decolonial queerfeminist poet and scholar Gloria Anzaldúa The book's posthuman deexceptionalizing of human death unfolds together with a collection of poetry and autobiographical stories They are analysed through the lens of a posthuman queerfeminist revision of the method of autophenomenography

phenomenological analysis of autobiographical material Nina Lykke explores the speaking position of a mourning queerfeminine I who contemplates the relationship with her dead beloved lesbian life partner She reflects on her enactment of processes of co-becoming with the phenomenal and material traces of the deceased body and the new assemblages with which it has merged through death's material metamorphoses becoming ashes through cremation and becoming mixed with algae sand when the ashes were scattered across a seabed made of fifty-five million year old fossilized algae It is argued that the mourning I's intimate bodily empathizing theorized as symphysizing with her deceased queer-masculine beloved life partner facilitates the processes of vitalist material and spiritual material co-becoming and the rethinking of death from a new and different perspective than that of the sovereign philosophical subject
