Yaron Z. Eliav,2005-12-06 Eliav refutes the popular tradition that situates the Temple Mount as a unique sacred space from the earliest days of the history of Israel and the Jewish people a sequential development model that begins in the tenth century BCE with Solomon s construction of the First Temple Instead he asserts that the Temple Mount emerged as a sacred space in Jewish and early Christian consciousness hundreds of years later toward the close of the Second Temple era in the first century CE Eliav pinpoints three defining moments in the Temple Mount s physical history King Herod s dramatic enlargement of the mountain at the end of the first century BCE the temple s destruction by the Roman emperor Titus in 70 CE and Hadrian s actions in Jerusalem sixty years later **Bulletin** Special Libraries Association.
