INTRODUCTION TO TINKERPLOTS

This activity will have you review videos of some basic TinkerPlots features and answer some viewing questions based on the videos. Watch this introductory TinkerPlots tutorial at: https://mediaspace.illinois.edu/media/t/1_wvupfy4u

After watching the tutorial, answer the following questions.

1. At the beginning of the video, the instructor clicks on one of the icons (dots). Describe what she learns when she clicks on that first icon.

The instructor clicked plot, which showed the plot of the cats. Showing the female and male cats.

2. What happens when she clicks on the attribute Age in the table?

When she clicked on age, she see the color gradient, the older the cat is, the pinker the dot is.

3. Describe the process that she used to determine the percentage of cats that weighed between 5 and 9 pounds.

She pulled on one of the icons to separate them in to groups, than she pulled it again, and got 3 groupings. Than, she stacked them up with the stack buttons. Than she used count to see the count of the cats pounds, than she eventually used the percentage icon to see the percentage of cats that weighted between 5 to 9 pounds.

4. Which way do you drag dots to organize the data into more and more groups, eventually placing all of the data along the x-axis?
She pulled the case all the way to right. Than she dragged a colour to the graph.
5. What "interesting" feature did she identify about the distribution of cat lengths?
