Srinilta,2020-03-03 This volume constitutes the refereed proceedings of the 12th Asian Conference on Intelligent Information and Database Systems ACIIDS 2020 held in Phuket Thailand in March 2020 The total of 50 full papers accepted for publication in these proceedings were carefully reviewed and selected from 180 submissions The papers are organized in the following topical sections advanced big data machine learning and data mining industry applications of intelligent methods and systems artificial intelligence optimization and databases in practical applications intelligent applications of internet of things recommendation and user centric applications of intelligent systems Wearable Haptic Devices for Realistic Scenario Applications Federica Barontini,2024-11-02 This book delves into the application of wearable haptic feedback technology in various contexts focusing on prosthetics for individuals with upper limb loss and navigation systems for the visually impaired Central to the book is the development of technologies that address users needs and demands It highlights the pivotal role of a user centred approach in designing and creating novel feedback mechanisms Beginning with focus groups and experimental campaigns each chapter introduces innovative haptic devices that are characterized tested and refined to consistently meet user requirements The research culminates in the creation of a fully integrated feedback system within a prosthetic socket This book provides comprehensive insights into developing practical user friendly haptic devices that significantly improve the quality of life for individuals with sensory impairments *Introduction to the Manual of Geography* James Monteith,1895 *A Manual of Lumasaba Grammar* John Bremner Purvis,1907 *Rob|Arch 2012* Sigrid Brell-Cokcan,Johannes Braumann,2013-12-16 This volume collects about 20 contributions on the topic of robotic construction methods It is a proceedings volume of the robarch2012 symposium and workshop which will take place in December 2012 in Vienna Contributions will explore the current status quo in industry science and practitioners The symposium will be held as a biennial event This book is to be the first of the series comprising the current status of robotics in architecture art and design **Robot Manipulators** Alex Lazinica,Hiroyuki Kawai,2010-04-01 Robot manipulators are developing more in the direction of industrial robots than of human workers Recently the applications of robot manipulators are spreading their focus for example Da Vinci as a medical robot ASIMO as a humanoid robot and so on There are many research topics within the field of robot manipulators e g motion planning cooperation with a human and fusion with external sensors like vision haptic and force etc Moreover these include both technical problems in the industry and theoretical problems in the academic fields This book is a collection of papers presenting the latest research issues from around the world Robotized technologies for enhanced shipyard operations: challenges and solutions Jawad Masood,Felix Vidal,David Castro,Afra M. Pertusa,Abel Feijoo,2024-03-25 Large component manufacturing relies heavily on manual operations and human workers Human centric solutions can preserve industry specific knowledge extend capabilities and improve job performance Three robotized technologies were developed for shipyard operations ABB and KUKA robot hand guiding systems HGS a lightweight collaborative system for plasma cutting and a cost effective 3D projection system for retrofitting These

technologies were developed at the open didactic factory which served as platforms for rapid technological advancement The HGS was integrated with ABB and KUKA and the 3D projection technology and lightweight collaborative system offered a cost effective solution for small and medium shipyards However transitioning to non flat surfaces presents challenges due to geometric variations and discrepancies between the computer aided design model and the actual component

**Advanced Surface Enhancement** Sho Itoh, Shashwat Shukla, 2019-08-30 This book presents the proceedings of the first INCASE conference organised by ARTC at A STAR Singapore It provides a comprehensive review of recent advances in surface enhancement processes and strategies employed to assess their impact on materials properties and performance As cyber physical systems are becoming more and more relevant in manufacturing it focuses on assessing the readiness of current technologies for future transformations such as Industry 4 0 identifying the opportunities and challenges and exploring ways to address them Written by researchers practising engineering and industry experts the book bridges the gap between research and manufacturing promoting technology adoption in industry and innovative ideas to prepare it for the future
