Otherness in Hispanic Culture Teresa Fernández Ulloa, 2014-06-26

This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th, 20th and 21st centuries and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America. The majority of the chapters are concerned with otherness in its various dimensions: the alien, Other, foreign, immigrant, ethnically different, disempowered, female or minor, as well as the Other of different sexual orientation and/or ideology. Following Octavio Paz, otherness is expressed as the attempt to find the lost object of desire, the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus who, in his wrath, tore off from him. Otherness compels human beings to search for the complement from which they were severed. Thus, a male joins a female, his other half, the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection, formerly altered by divine will. As a result of this transformation, one can annul the distance that keeps us away from that which, not being our own, turns into a source of anguish. The clashing diversity of all things requires the human predisposition to accept that which is different. Such a predisposition is an expression of epistemological, ethical and political aperture. The disposition to co-exist with the different is imagined in the deanthropocentrization of the bonds with all living realms. And otherness is, in some way, the reflection of sameness/misunderstanding. The other is closely related to the self because the vision of the other implies a reflection about the self; it implies consciously or not a relationship with the self. These topics are addressed in this book from an interdisciplinary perspective encompassing arts, humanities and social sciences.

Political Terrorism A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against

El devenir de la lingüística y la cultura: un estudio interdisciplinar sobre lengua, literatura y traducción. Aitor Garcés Manzanera,Omar Salem Ould García,Salud Adelaida Flores Borjabad,2022-06-06 Todo ser vivo necesita interactuar con el medio que lo rodea generando un tipo de información que lo lleva a crear un acto de comunicación As se desarrollan una serie de lenguajes que los llevan a comunicarse con la comunidad Por ejemplo en el caso de los animales se puede observar cómo emiten diferentes sonidos para realizar cualquier tipo de acción o incluso para advertir de cualquier peligro a su alrededor En el caso de los seres humanos desde nuestros órganos hemos generado gestos y expresiones que varían de un lugar a otro así como también hemos elaborado sistemas de comunicación basados en señales para poder comunicarnos No obstante en el caso de los seres humanos todo esto va más allá en tanto que hemos sido capaces de desarrollar un sistema de comunicación verbal y escrito otorgándole convenciones que varían de un lugar a otro Siguiendo esta línea nuestra forma de comunicación ha ido más allá de la simbología hasta tal punto de elaborar un sistema de símbolos sonoros y gráficos que se articulan de diferentes formas con el fin de elaborar un sistema complejo de estructuras que nos llevan a comentar nuestro presente pasado y futuro lo que se ha denominado lengua Además de todo esto hay que tener en cuenta el factor geográfico puesto que no se puede hablar en exclusiva de una única lengua En este contexto la lengua o las lenguas varían en función de los factores socioculturales que la rodean es decir existe una relación intrínseca entre lengua, lenguaje y sociedad teniendo en cuenta sus usos y el contexto en el que se desenvuelven
