information typically presented in victimology that ignore prevention or intervention even though these topics are currently at the forefront of the national conversation going on about sexual violence in higher education New to this edition are added coverage of immigrants and minorities and a new chapter on the media and victimization Instructor resources are available online Suitable for undergraduate courses in victimology this book also serves the needs of sociology and women s studies courses and can be taught university wide as part of diversity and inclusion initiatives *The Chicago Reporter* ,2007
