**When Luxury Meets Art** Olga Louisa Kastner,2013-12-05 Increasingly luxury brands join forces with the arts today Yet these cross over collaborations do not constitute a homogeneous strategy but become manifest in manifold forms and appearances Regardless of their growing practical relevance for the creation of contemporary luxury brands though the varied forms of Luxury Brand Art Collaborations LBACs have remained largely unexplored to date Olga Louisa Kastner aims at systematizing the dominating collaborative patterns between luxury brands and the arts She empirically derives distinct types of LBACs based on methodically developed attributes and a large number of real cases Finally the author describes the main characteristics of the identified types and illustrates them by prototypical cases

**Better By Design?** Paul L. Knox,2020-10-09 The design professions architecture city planning landscape architecture and urban design share a great deal in terms of intellectual antecedents professional ideals and praxis In particular they share a commitment to creating better cities whether at the scale of buildings neighborhoods or city regions But who decides what constitutes a good city and how should such an ideal be implemented In Better by Design Paul Knox explores the intellectual roots of the design professions showing how architects planners and other designers have traditionally interpreted their roles and implemented their ideas in cities across North America and the UK Drawing on his long record of research and award winning publications on the social production of the built environment Knox offers a critical appraisal of their ultimate effectiveness in achieving the goal of creating and sustaining good cities

*The Geographies of Fashion* Louise Crewe,2017-03-23 Clothes are inherently geographical objects

yet few of us consider the social and economic significance of their journey from design to production to consumption The Geographies of Fashion is the first in depth study of fashion economies from a geographer s perspective exploring the complex relationship between our attachment to the clothes we own love and desire and their geographic and economic ties How far does a garment physically travel from factory to wardrobe How do clothes come to have social or economic value and who or what creates it What are the geographies of fashion and how do they interact with one another This ground breaking book powerfully reframes fashion spaces from the body to the city digital or virtual space to material production positioning fashion at the centre of contemporary culture and collective identities Combining contemporary theoretical approaches with a cutting edge analysis of international fashion brands and institutions including Maison Martin Margiela Zara Louis Vuitton ASOS and Savile Row The Geographies of Fashion is essential reading for students of fashion geography and related disciplines including sociology architecture and design

**Cities and Design** Paul L. Knox, 2010-07-12 Cities initially a product of the manufacturing era have been thoroughly remade in the image of consumer society Competitive spending among affluent households has intensified the importance of style and design at every scale and design professions have grown in size and importance reflecting distinctive geographies and locating disproportionately in cities most intimately connected with global systems of key business services Meanwhile many observers still believe good design can make positive contributions to people s lives Cities and Design explores the complex relationships between design and urban environments It traces the intellectual roots of urban design presents a critical appraisal of the imprint and effectiveness of design professions in shaping urban environments examines the role of design in the material culture of contemporary cities and explores the complex linkages among designers producers and distributors in contemporary cities for example fashion and graphic design in New York architecture fashion and publishing in London furniture industrial design interior design and fashion in Milan haute couture in Paris and so on This book offers a distinctive social science perspective on the economic and cultural context of design in contemporary cities presenting cities themselves as settings for design design services and the affect associated with design

**World Clothing and Fashion** Mary Ellen Snodgrass, 2015-03-17 Taking a global multicultural social and economic perspective this work explores the diverse and colourful history of human attire From prehistoric times to the age of globalization articles cover the evolution of clothing utility style production and commerce including accessories shoes hats gloves handbags and jewellery for men women and children Dress for different climates occupations recreational activities religious observances rites of passages and other human needs and purposes from hunting and warfare to sports and space exploration are examined in depth and detail Fashion and design trends in diverse historical periods regions and countries and social and ethnic groups constitute a major area of coverage as does the evolution of materials from animal fur to textiles to synthetic fabrics and production methods from sewing and weaving to industrial manufacturing and computer aided design Dress as a reflection of social status intellectual and artistic trends economic
