*The Traces of Jacques Derrida's Cinema* Timothy Holland, 2024 Situated at the intersection of film and media studies literary theory and continental philosophy The Traces of Jacques Derrida's Cinema provides a trenchant

account of the role of cinema in the oeuvre of one of the most influential philosophers of the twentieth century Jacques Derrida 1930 2004 The book is animated by Derrida's self confessed passion for the movies his reluctance to write about film despite the range of his corpus and the generative encounters arising between his legacy and the field of film and media studies as a result Given the expanse of its references interdisciplinarity and consideration of Derrida's approach to the experience of both spectatorship and the act of being filmed The Traces of Jacques Derrida's Cinema contributes to the ongoing close analyses of the philosopher's work while also providing a rigorous introduction to deconstruction Author Timothy Holland interweaves historical and speculative modes of research and writing to articulate the peripheral yet surprisingly crucial place of the cinematic medium for Derrida and his philosophical enterprise The outcome is a meticulously detailed survey of the centers and margins of Derrida's oeuvre that include forays into such terrain as his notable appearances in films an unrealized project on cinema and belief that Derrida proposed in a 2001 interview the correspondences between the strategies of deconstruction and the traditions homecomings and wordplay of David Lynch's cinematic media and the questions wedded to the future of film studies amid the vicissitudes of the modern virtual university Ultimately Holland pursues the thinking activated by the flickering of Derrida's cinema not only the absence and presence of film in Derrida's professional and personal life but also the rigor of academic discourse and the pleasures of the movies ghosts and technology religious faith and scientific knowledge and ruination and survival as a critical chance for reflection

After Derrida Jean-Michel Rabaté, 2018-05-31 This collection of essays explores the main concepts and methods of reading launched by French philosopher Jacques Derrida who died in 2004 Derrida exerted a huge influence on literary critics in the 1980s but later there was a backlash against his theories Today one witnesses a general return to his way of reading literature the rationale of which is detailed and explained in the essays The authors both well known and younger specialists give many precise examples of how Derrida who always remained at the cusp between literature and philosophy posed fundamental questions and thus changed the field of literary criticism especially with regard to poetry The contributors also highlight the way Derrida made spectacular interventions in feminism psychoanalytic studies animal studies digital humanities and post colonial studies Thinking Out of Sight Jacques Derrida, 2024-05-31 Jacques Derrida remains a leading voice of philosophy his works still resonating today and for more than three decades one of the main sites of Derridean deconstruction has been the arts Collecting nineteen texts spanning from 1979 to 2004 Thinking out of Sight brings to light Derrida's most inventive ideas about the making of visual artworks The book is divided into three sections The first demonstrates Derrida's preoccupation with visibility image and space The second contains interviews and collaborations with artists on topics ranging from the politics of color to the components of painting Finally the book delves into Derrida's writings on photography video cinema and theater ending with a text published just before his death about his complex relationship to his own image With many texts appearing for the first time in English Thinking out of Sight helps us better
