progenitor of modern counterinsurgency doctrine Volkmann wrote the field manuals that became the US Army's first handbooks outlining the precepts for both special warfare and counter guerrilla operations making him the true father of Army Special Forces Volckmann's private army waged arguably the most successful guerrilla campaign of the entire war Mr Guardia argues convincingly that Volckmann deserves the title of father of Special Forces The Washington Times US Air Cavalry Trooper vs North Vietnamese Soldier Chris McNab,2020-09-17 The tactics and technologies of modern air assault vertical deployment of troops by helicopter or similar means emerged properly during the 1950s in Korea and Algeria Yet it was during the Vietnam War that helicopter air assault truly came of age and by 1965 the United States had established fully airmobile battalions brigades and divisions including the 1st Cavalry Division Airmobile This division brought to Vietnam a revolutionary new speed and dexterity in battlefield tactics using massed helicopters to liberate its soldiers from traditional overland methods of combat manoeuvre However the communist troops adjusted their own thinking to handle airmobile assaults Specializing in ambush harassment infiltration attacks and small scale attrition the North Vietnamese operated with light logistics and a deep familiarity with the terrain They optimized their defensive tactics to make landing zones as hostile as possible for assaulting US troops and from 1966 worked to draw them into Hill Traps extensive kill zones specially prepared for defence in depth By the time the 1st Cavalry Division Airmobile withdrew from Vietnam in 1972 it had suffered more casualties than any other US Army division Featuring specially commissioned artwork archive photographs and full colour battle maps this study charts the evolution of US airmobile tactics pitted against North Vietnamese countermeasures The two sides are analysed in detail including training logistics weaponry and organization **The M3 "Grease Gun"** Leroy Thompson,2016-05-19 Influenced by the German MP 40 and the British Sten the 45 caliber M3 Grease Gun served as the primary US submachine gun for almost a half century Designed to replace the expensive Thompson SMG the M3 was issued to airborne troops and others during World War II thanks to its compact design with sliding wire stock An improved variant the M3A1 was favored by armored crews right up to the beginning of the 1990s seeing service in 1991's Operation Desert Storm In Korea and Vietnam reconnaissance troops and special operations forces were at times armed with the M3A1 also available in a suppressed version and it was the first SMG issued to the US counterterrorist unit Delta Force Featuring full color artwork first hand accounts and archive and close up photographs this is the engaging story of the M3 submachine gun

Armor School in the 1970s Starry brought new advances to armor tactics training and strategy Most notably he created the new AirLand Battle doctrine which paved the way for a decisive US victory in the Gulf War Like most Vietnam era commanders Starry s legacy has been overshadowed by the controversy surrounding the war itself but few have had as much of an impact on modern maneuver warfare In this new biography of Gen Donn Starry armor officer Mike Guardia examines the life and work of this pioneering officer using extracts from interviews with veterans and family as well as from Starry s personal papers

Shadow Commander Mike Guardia,2015-11-24 The true story of the US Army legend who organized Blackburn s Headhunters against Japan in WWII and went on to initiate Special Forces operations in Vietnam The fires on Bataan burned on the evening of April 9 1942 illuminating the white flags of surrender against the dark sky Outnumbered and outgunned remnants of the American Philippine army surrendered to the forces of the Rising Sun Yet US Army Captain Donald D Blackburn refused to lay down his arms With future Special Forces legend Russell Volckmann Blackburn escaped to the jungles of North Luzon where they raised a private army of 22 000 men against the Japanese His organization of native tribes into guerrilla fighters would lead to the destruction of the enemy s naval base at Aparri But Blackburn s amazing accomplishments would not end with the victory in the Pacific He would go on to play a key role in initiating Army Special Forces operations in Southeast Asia spearheading Operation White Star in Laos as commander of the 77th Special Forces Group and eventually taking command of the highly classified Studies and Observations Group SOG charged with performing secret missions now that main force Communist incursions were on the rise In the wake of the CIA s disastrous Leaping Lena program in 1964 Blackburn revitalized the Special Operations campaign in South Vietnam Sending reconnaissance teams into Cambodia and North Vietnam he discovered the clandestine networks and supply nodes of the Ho Chi Minh Trail Taking the information directly to General Westmoreland Blackburn was authorized to conduct full scale operations against the NVA and Viet Cong in Laos and Cambodia In combats large and small the Communists realized they had met a master of insurgent tactics and he was on the US side Following his return to the US Blackburn was the architect of the infamous Son Tay Prison Raid officially termed Operation Ivory Coast the largest prisoner of war rescue mission and indeed the largest Army Special Forces operation of the Vietnam War During a period when US troops in Southeast Asia faced guerrilla armies on every side America had a superb covert commander of its own This book follows Blackburn through both his youthful days of desperate combat and his time as a commander imparting his lessons to the new ranks of Army Special Forces

Soldiers Once and Still Alex Vernon,2007-08-15 As the world enters a new century as it embarks on new wars and sees new developments in the waging of war reconsiderations of the last century s legacy of warfare are necessary to our understanding of the current world order In *Soldiers Once and Still* Alex Vernon looks back through the twentieth century in order to confront issues of self and community in veterans literature exploring how war and the military have shaped the identities of Ernest Hemingway James Salter and Tim O Brien three of the twentieth century s most respected authors Vernon specifically

explores the various ways war and the military through both cultural and personal experience have affected social and gender identities and dynamics in each author's work Hemingway Salter and O'Brien form the core of *Soldiers Once and Still* because each represents a different warring generation of twentieth century America World War I with Hemingway World War II and Korea with Salter and Vietnam with O'Brien Each author also represents a different literary voice of the twentieth century from modern to mid century to postmodern and each presents a different battlefield experience Hemingway as noncombatant Salter as air force fighter pilot and O'Brien as army grunt War's pervasive influence on the individual means that for veterans turned writers like Hemingway Salter and O'Brien the war experience infiltrates their entire body of writing their works can be seen not only as war literature but also as veterans literature As such their entire postwar oeuvre regardless of whether an individual work explicitly addresses the war or the military is open to Vernon's exploration of war society gender and literary history Vernon's own experiences as a soldier a veteran a writer and a critic inform this enlightening critique of American literature offering students and scholars of American literature and war studies an invaluable tool for understanding war's effects on the veteran writer and his society **Nam: The Lost Conflict Film**

Eastman, 2024-01-12 We have been waiting for a book on war and memory about the American War in Vietnam both about the Americans and the Vietnamese in the new century of the Desert Wars of Afghanistan and Iraq Susan Lyn Eastman has fulfilled that expectation and she has done so with a study impressive in its range of topical issues texts and commentary Philip D Beidler Margaret and William Going Professor of English University of Alabama After more than four decades the Viet Nam War continues to haunt our national memory culture politics and military actions In this probing interdisciplinary

study Susan Lyn Eastman examines a range of cultural productions from memorials and poetry to cinematic and fictional narratives that have tried to grapple with the psychic afterlife of traumatic violence resulting from the ill fated conflict in Southeast Asia Underpinning the book is the notion of prosthetic memory which involves memories acquired by those with no direct experience of the war such as readers and filmgoers Prosthetic memories Eastman argues refuse to relegate the war to the forgotten past and challenge the authenticity of experience thus ensuring its continued relevance to debates over America's self conception specifically her coinage of the New Vietnam Syndrome and the country's role in world affairs when it comes to contemporary military interventions With the notable exception of the Veterans Memorial in Washington Eastman's focus is on works produced from the Persian Gulf War 1990-91 through the post 9/11 War on Terror She looks not only at American representations of the war from movies like Randall Wallace's *We Were Soldiers* to poems by W D Ehrhart Yusef Komunyakaa and others but also at novels by Vietnamese authors Bao Ninh and Huong Thu Duong The experiences of women figure prominently in the book Eastman devotes a chapter to the Vietnam Women's Memorial and another to Sandie Frazier's novel *I Married Vietnam* and Oliver Stone's film *Heaven and Earth* based on memoirs by Le Ly Hayslip And by examining Jessica Hagedorn's *Dream Jungle* a novel inspired by the filming of *Apocalypse Now* she considers how the war's repercussions were felt in other countries in this case the Philippines Her investigation of Vietnamese American authors Lan Cao Andrew Lam and GB Tran adds a transnational dimension to the study
