Born to Wonder Alister McGrath, 2020-08-04 In *Born to Wonder* Alister McGrath a prolific Oxford scholar scientist and theologian explores the deepest mystery at the heart of life itself Life is a gift We never asked to be born Yet here we are living in this strange world of space and time trying to work out what it's all about before the darkness closes in and extinguishes us We are adrift on a misty grey sea of ignorance seeking a sun kissed island of certainty on which we might hope to find clear answers to our deepest and most poignant questions What is the point of life Why are we here And what is it about us that makes us want to ask these questions As far as we know we're the only species on earth that asks these questions and dares to hope that we might find an answer It seems that we are born to wonder not merely to exist From time to time all of us find ourselves overwhelmed by a sense of awe or mystery often when confronted with the beauty of nature whether it is a mountain stream or the vast expanse of ocean waters That is when we see a flicker of a grander vision of reality perhaps lying beyond the horizons of our experience It is as if for only a moment a veil is removed and we catch a half glimpsed sight of a promised land waiting to be mapped and explored This sense of wonder fuels much of humanity's creativity and its search for understanding
