outcomes for seniors living with a stroke or dementia Activities and discussion questions at the end of every chapter help you understand the material and apply concepts in clinical situations Adulthood Rita M. Curl-Langager, 2024-04-29 Adulthood An Introduction offers a thorough foundation to learn consolidate and apply developmental concepts and current knowledge to the psychology of adult development It illustrates major ideas with carefully selected research that is widely referenced and topically pertinent to development in early middle and late adulthood This comprehensive text reviews the five domains of development including biological development cognitive development personality development social development and ecological influences in development It introduces multicultural perspectives and contexts in these discussions as well as developmental themes such as nature and nurture early and later experiences and the individual s active role Accompanied by learning objectives and section reviews vignettes portray numerous adult experiences and commentaries for students offer additional information and interpretation with the students perspectives in mind Designed to encourage students to think critically about topics of adulthood in both academic and applied settings Adulthood is appropriate for undergraduate students in psychology and related disciplines such as addiction studies speech pathology criminal justice nursing and business Combined with a complete ancillary package the book provides activities for individuals and groups critical thinking questions vignette specific questions and responses perspectives across disciplines and much more Additional resources for both students and instructors are available in the book s Support Material Resilient Grandparent Caregivers Bert Hayslip, Gregory C. Smith, 2013 The study of grandparents raising grandchildren now almost two decades old has tended to have a negative bias emphasizing the difficulties such people face and the negative impact that grandparent caregiving has on them physically socially and emotionally This edited book seeks to reverse this trend by taking a positive approach to understanding grandparent caregivers focusing on their resilience and resourcefulness This method reflects a strengths based approach and the importance of benefit finding and positive coping Chapters feature information from both qualitative and quantitative studies and are written by a diverse range of professionals such as counselors psychologists geriatric social workers and nurse practitioners to provide multidisciplinary persepctives for practitioners working with grandparent caregivers Part one discusses the positive qualities that custodial grandparents possess resilience resourcefulness and benefit finding The second part considers the sociocultural aspects of resilience and resourcefulness in grandparent caregivers Finally part three presents strengths based interventions for working with custodial grandparents Practitioners will find this to be a valuable resource in their work and the field as a whole stimulating positive changes in attitudes toward Geriatric Oncology Arti Hurria, Lodovico Balducci, 2009-07-14 Cancer and and practices with grandparent caregivers aging are integrally related Cancer incidence and mortality increase with age with most cancer diagnoses and deaths occurring in patients aged 65 and older The aging of the Baby Boomer population along with an overall increase in life expectancy points to a doubling of the U S population over age 65 by the year 2030 This demographic shift combined with

the known association of cancer and aging is expected to bring about a rapid growth in the older cancer patient population It is clear that geriatric principles must become part of oncology care The evaluation and development of treatment recommen tions for an older adult with cancer can be challenging for many reasons Tumor biology and response to therapy are affected by age In addition age related factors may impact treatment patterns tolerance and efficacy These age related factors include functional status declines comorbid conditions changes in cognitive function weakening of organ function decreases in physiologic reserve and faltering social support **Disability Through the Life Course** Tamar Heller, Sarah Parker Harris, 2012 The SAGE Reference Series on Disability is a cross disciplinary and issues based series incorporating links from varied fields that make up Disability Studies This volume tackles issues relating to disability through the life course

Psychosocial Elements of Physical Therapy Hannah Johnson,2024-06-01 Physical therapists know that their patients are more than just a list of symptoms They are people first often with a complex mix of medical and psychiatric circumstances who may receive a wide range of care from a team of professionals Keeping this in mind Psychosocial Elements of Physical Therapy The Connection of Body to Mind is both a textbook and a clinical resource for physical therapist students and clinicians practicing in any patient population with psychological concerns or disorders Inside Dr Hannah Johnson provides an essential introduction of psychosocial concepts general treatment approaches for culturally sensitive care and selected classes of mental illness as defined by the Diagnostic and Statistical Manual of Mental Disorders 5th Edition DSM 5 A complete review of the current research and evidence base provides students a strong foundation to build their careers on but can also act as a crash course in the most recent literature for the busy clinician Features Clear concise language and layout for efficient learning Application based review questions Real world case studies to apply critical thinking skills Evidence based practical tests and measures Vocabulary terms that facilitate interdisciplinary teamwork Psychosocial Elements of Physical Therapy The Connection of Body to Mind provides physical therapist students and clinicians with an efficient yet comprehensive guide to helping patients with psychological concerns or disorders

Grandparenting in the United States Madonna Harrington Meyer, Ynesse Abdul-Malak, 2016-12-05 The contributors to Grandparenting in the United States edited by Madonna Harrington Meyer and Ynesse Abdul Malak of Syracuse University use a variety of quantitative and qualitative data sets to assess how grandparenting and its impacts vary by living arrangements economic status education gender race ethnicity and other stratifying variables Some papers assess how the provision of financial assistance particularly during economic downturns may be easily absorbed or financially detrimental Others demonstrate how immigrant grandparents navigate multiple sets of cultural expectations to provide childcare to their grandchildren Some show how Hispanic grandparents acculturation level is linked to childcare and financial transfer across generations Others emphasize the extent to which schoolchildren with disabilities are more likely to receive grandparent care particularly if the mother is single Some reveal how custodial grandmothers are significantly more likely to be poor face

social isolation and report poorer health Others enumerate the positive and negative impacts of frequent interaction for both generations In total the volume underscores the impact of evolving diversification of grandparenting across multiple Issues in Aging Mark Novak, 2015-07-22 Opportunities and optimism in Aging Issues in Aging 3rd edition takes an optimistic view of aging and human potential in later life This book presents the most up to date facts on aging today the issues raised by these facts and the societal and individual responses that will create a successful old age for us all Mark Novak presents the full picture of aging exhibiting both the problems and the opportunities that accompany older age The text illustrates how generations are dependent on one another and how social conditions affect both the individual and social institutions Learning Goals Upon completing this book readers will be able to Understand how large scale social issues social attitudes the study of aging and demographic issues affect individuals and social institutions Identify the political responses to aging and how individuals can create a better old age for themselves and the people they know Separate the myths from the realities of aging Recognize the human side of aging Trace the transformation of pension plans health and opportunities for personal expression and social engagement to the new ecology of aging today Lifespan Development Tara L.
