**Accounting Information Systems** Erik Strauss, Martin Quinn, 2022-11-25 The Routledge Handbook of Accounting Information Systems is a prestige reference work offering a comprehensive overview of the state of current knowledge and emerging scholarship in the discipline of AIS. The pace of technological driven change is rapid and this revised edition provides a deeper focus on the technical underpinnings and organisational consequences of accounting information systems. It has been updated to capture the changes in technology since the previous edition. It now includes chapters and scholarly thought on artificial intelligence, predictive analytics and data visualisation among others. Contributions from an international cast of authors provide a balanced overview of established and developing themes, identifying issues and discussing relevant debates. The chapters are analytical and engaging. Many chapters include cases or examples and some provide additional resources for readers. The chapters also provide a reflection on where the research agenda is likely to advance in the future. This is a complete and indispensable guide for students and researchers in accounting and accounting information systems, academics and students seeking convenient access to an unfamiliar area as well as established researchers seeking a single repository on the current debates and literature in the field.

*Research Handbook on Accounting and Ethics* Marion Brivot, Charles H. Cho, 2023-03-02 This invigorating Research Handbook focuses on collective ethical issues facing the accounting profession as a whole as well as the users of the services provided by accountants. **Handbook of Research on Organizational Transformations through Big Data Analytics** Tavana, Madjid, Puranam, Kartikeya, 2014-11-30 Big data analytics utilizes a wide range of software and analytical tools to provide immediate relevant information for efficient

decision making Companies are recognizing the immense potential of BDA but ensuring the data is appropriate and error free is the largest hurdle in implementing BDA applications The Handbook of Research on Organizational Transformations through Big Data Analytics not only catalogues the existing platforms and technologies it explores new trends within the field of big data analytics BDA Containing new and existing research materials and insights on the various approaches to BDA this publication is intended for researchers IT professionals and CIOs interested in the best ways to implement BDA applications and technologies *Research Handbook on Performance Measurement for Management Control* Anne M. Lillis, Jennifer Grafton, 2024-11-08 Performance measurement is a critical dimension of management control theory and practice and one of the most widely researched areas of management accounting The Research Handbook on Performance Measurement for Management Control provides the foundation for the next generation of research in management accounting on performance measurement by canvassing the contemporary landscape of performance measurement research and outlining future research opportunities Handbook of Research on Entrepreneurship in the Contemporary Knowledge-Based Global Economy Baporikar, Neeta, 2015-10-21 The rapid rise of knowledge based economies has revolutionized the perceptions and practices of globalized business Recent developments in engineering electronics and biotechnology have expanded the very definition of entrepreneurship in today s international market weaving discussions of enhanced connectivity and communication environmental sustainability and government policy changes into a complex multidimensional conversation The Handbook of Research on Entrepreneurship in the Contemporary Knowledge Based Global Economy provides a comprehensive survey of the most recent developments in the field of entrepreneurship highlighting their effects on information technology business networking knowledge production distribution and organization This timely publication features extensive coverage of the fast developing entrepreneurial field illuminating recent technological social and strategic innovations in language that is accessible for a worldwide audience of business educators researchers and students This authoritative text showcases research based articles on entrepreneurship for knowledge economies academic entrepreneurship women and entrepreneurship entrepreneurship education organizational learning ability innovations in industry agriculture and management and the evolution of a new all inclusive corporate culture *Management Scholarship and Organisational Change* Miriam Green, 2019-01-08 Change is a crucial and inescapable process for many organisations It remains a constant challenge for managers and many change management initiatives fail Burns and Stalker s seminal text on managing change The Management of Innovation has often been used as a basis for research in mainstream management journals and has been represented as an important theory in popular and long established management textbooks The issues raised in that book are still being grappled with by academics and practitioners today Miriam Green provides a critical analysis of the mainstream construction of knowledge on change management through an examination of representations of that text The main thesis of her book is that this literature though valuable does not provide a full picture Its objectivist

approach ignores the role of other factors raised in the original study. These factors include the effects of power, politics, resistance, and employee influence on the outcomes of managerial change strategies and on other organisational processes with important consequences for the understanding of change initiatives by both academics and practitioners. This is part of an ongoing debate in management studies and more widely in the social sciences about theoretical approaches and research methods. The originality of this book lies in its in-depth comparison of an entire monograph on organisations facing technological and commercial change with an equally in-depth analysis of the ways this work has been represented and used as a basis for teaching and research. It highlights the limitations of the exclusive use of one approach to explain the complications arising from organisational change. It challenges the scientific justification offered for that approach and supports arguments for more inclusive and sustainable scholarship of greater relevance to academics, managers, and other organisational stakeholders.
