Hong Kong and China Frank Ching, 1984 [China without Mao](#) [electronic resource] Immanuel Chung-Yueh Hsü, 1990

China Under Deng Xiaoping David W. Chang, 1991-06-18 Based on interviews field trips to factories and rural communes this is an attempt to assess the political history of China and project its future development The book suggests that China will continue to reform and will move away from adherence to Mao Zedong thought *China's Second Revolution* Harry Harding, 2010-12-01 China has since 1976 been enmeshed in an extraordinary program of renewal and reform The obvious changes the T shirts blue jeans makeup and jewelry worn by Chinese youth the disco music blaring from radios and loudspeakers on Chinese streets the television antennas mushrooming from both urban apartment complexes and suburban peasant housing the bustling free markets selling meat vegetables and clothing in China s major cities reflect a fundamental shift in the government s policy toward the economy and political life Although doubts about the long term commitment to reform arose after the student protests in December 1986 and the dismissal of Party General Secretary Hu Yaobang in January 1987 the scope of reform has been so broad and the pace of change so rapid that the post Mao era fully warrants Den Xiaoping s description of it as the second revolution undertaken by the Chinese Communist Party [China](#) John King Fairbank, Merle Goldman, 2006-04-30 A broad history of China covering the period from the earliest archaeological records to the present Updated by Merle Goldman from the original 1992 edition in order to include the reforms in the post Mao period through the early years of the twenty first century including the leadership of Hu Jintao She also provides an epilogue discussing the changes in contemporary China that will shape the nation in the years to come **China Exchange News**, 1983 [Lonely Planet China](#) Lonely Planet, Damian Harper, Piera Chen, David Eimer, Daisy Harper, Trent Holden, Shawn Low, Tom Masters, Emily Matchar, Bradley Mayhew, 2017-06-01 1 best selling guide to China Lonely Planet China is your passport to the most relevant up to date advice on what to see and skip and what hidden discoveries await you Try dumplings in Beijing visit the Great Wall or cruise down the Yangzi River all with your trusted travel companion Get to the heart of China and begin your journey now Inside Lonely Planet China Colour maps and images throughout Highlights and itineraries help you tailor your trip to your personal needs and interests Insider tips to save time and money and get around like a local avoiding crowds and trouble spots Essential info at your fingertips hours of operation phone numbers websites transit tips prices Honest reviews for all budgets eating sleeping sight seeing going out shopping hidden gems that most guidebooks miss Cultural insights give you a richer more rewarding travel experience customs history art religion cinema calligraphy architecture martial arts landscapes cuisine Free convenient pull out Beijing city map included in print version plus over 190 maps Covers Beijing Tianjin Shandong Shanghai Fujian Jiangsu Liaoning Zhejiang Jilin Shanxi Anhui Jiangxi Hunan Hong Kong Macau Guangdong Hainan Sichuan Xinjiang Inner Mongolia Tibet and more eBook Features Best viewed on tablet devices and smartphones Downloadable PDF and offline maps prevent roaming and data charges Effortlessly navigate and

 Smith,2019-04-11 China in the Post Utopian Age is an interdisciplinary book about China in the post utopian age focusing on
 the transformations that have occurred during the leaderships of Deng Xiaoping and Jiang Zemin throughout the 1980s and
 1990s **Policy In Evolution** Martin L Lasater,2019-05-28 The reunification of Taiwan with China is one of the most
 important policy issues of our time The issue has broad strategic political economic and moral ramifications for the U S as
 well as for Chinese on both sides of the Taiwan Strait The People's Republic of China PRC has assigned top political priority
 to reunification and has made the **Border Crossing in Greater China** Jenn-hwan Wang,2014-07-25 China's
 transformation from a poor and underdeveloped country into a global market power has profoundly altered its socioeconomic
 power relations with the other countries in the Greater China region namely Taiwan and Hong Kong Indeed this economic
 shift has resulted in the massive flow of capital and people from Taiwan as well as Hong Kong to China to seek business
 opportunities and new lifestyles These flows have in turn completely transformed longstanding borderlines in the region This
 book examines the transformation of Taiwan and Hong Kong's socioeconomic relationships with China as their economies
 have become more deeply integrated into Greater China Across three key sections it explores the impact of increasing social
 interaction and the shrinking of existing borderlines to ask whether these changes will bring about a convergence of identity
 among the people involved Production examines how investments from Taiwan and Hong Kong to China have transformed
 production networks Community explores the impact of cross boundary mobility and the integration of migrants into Chinese
 communities and finally Identity engages with what is one of the most important issues in contemporary Taiwanese society
 Border Crossing in Greater China contributes not only to theoretical debates on border crossing issues but also provides
 valuable insights on the practical concerns regarding social and political integration and tensions in the region As such it will

be of great interest to students and scholars of Taiwan studies Chinese studies Chinese society and Chinese economics

Wind Over Water David W. Haines, Keiko Yamanaka, Shinji Yamashita, 2012 Providing a comprehensive treatment of a full range of migrant destinies in East Asia by scholars from both Asia and North America this volume captures the way migrants are changing the face of Asia especially in cities such as Beijing Hong Kong Hamamatsu Osaka Tokyo and Singapore It investigates how the crossing of geographical boundaries should also be recognized as a crossing of cultural and social categories that reveals the extraordinary variation in the migrants origins and trajectories These migrants span the spectrum from Korean bar hostesses in Osaka to African entrepreneurs in Hong Kong from Vietnamese women seeking husbands across the Chinese border to Pakistani Muslim men marrying women in Japan from short term business travelers in China to long term tourists from Japan who ultimately decide to retire overseas Illuminating the ways in which an Asian based analysis of migration can yield new data on global migration patterns the contributors provide important new theoretical insights for a broader understanding of global migration and innovative methodological approaches to the spatial and temporal complexity of human migration Historical Dictionary of the People's Republic of China Lawrence R. Sullivan, 2007-05-23

When the Chinese Communist Party CCP seized power in October 1949 China was one of the poorest nations in the world In fact it was so weak it had been conquered by Japan a country one tenth its size a decade earlier Now more than fifty years later the People s Republic of China PRC is an emerging economic political and military superpower with the world s fastest growing economy and largest population 1.3 billion in 2005 A member of the United Nations Security Council since the early 1970s and a nuclear power China wields enormous influence in the world community The second edition of the Historical Dictionary of the People s Republic of China contains more than 400 cross referenced dictionary entries on individual topics spanning China s political economic and social system along with short biographies on important figures_ from politicians to writers and movie directors_ who have shaped Chinese history during the period of Communist rule from 1949 to 2006

Supplementing the entries are a chronology an introduction charts outlining the structure of the Chinese government and a bibliography of works in English making this a superb resource for college and high school students needing a quick reference on contemporary China Future Survey Annual 1986 Michael Marien, 1987-01-01 Hong Kong Jürgen Domes, Yu-ming Shaw, 1988-05-19

China Forever Poshek Fu, 2008 The transnational history and cultural politics of the Shaw Brothers movie empire *Media Messages* Linda Holtzman, 2000-12 Using sources in Japanese Chinese and American archives this text reassesses Woodrow Wilson s agenda at the Paris Peace Conference It argues Wilson did not betray China but negotiated a compromise with the Japanese to ensure that China s sovereignty would be respected in Shandong Province

Democracy in China Jiwei Ci, 2019-11-19 A respected Chinese political philosopher calls for the Communist Party to take the lead in moving China along the path to democracy before it is too late With Xi Jinping potentially set as president for life China s move toward political democracy may appear stalled But Jiwei Ci argues that four decades of reform have created

a mentality in the Chinese people that is just waiting for the political system to catch up resulting in a disjunction between popular expectations and political realities The inherent tensions in a largely democratic society without a democratic political system will trigger an unprecedented crisis of legitimacy forcing the Communist Party to act or die Two crises loom for the government First is the waning of the Communist Party s revolutionary legacy which the party itself sees as a grave threat Second is the fragility of the next leadership transition No amount of economic success will compensate for the party s legitimacy deficit when the time comes The only effective response Ci argues will be an orderly transition to democracy To that end the Chinese government needs to start priming its citizens for democracy preparing them for new civil rights and civic responsibilities Embracing this pragmatic role offers the Communist Party a chance to survive Its leaders therefore have good reason to initiate democratic change Sure to challenge the Communist Party and stir debate Democracy in China brings an original and important voice to an issue with far reaching consequences for China and the world *Reports from Committees* Great Britain.
