Hoodwinking The Nation:

Hoodwinking the Nation Julian Lincoln Simon, 1999 Most people in the United States believe that our environment is getting dirtier we are running out of natural resources and population growth in the world is a burden and a threat These beliefs according to Simon are entirely wrong Why do the media report so much false bad news about the environment resources and population And why do we believe it Those are the questions Julian L Simon set out to answer in his book Hoodwinking the Nation The purpose of this book is not to preach but to examine Most importantly it aims to consider whether institutional structures can be changed in a way that would allow more sanctions against undesirable practices and unethical behavior This volume will be valuable to political economists and sociologists and the general reader concerned with environmental issues and their social impacts

Hoodwinked Jack Cashill, 2009-07-20 For the last century many intellectuals and activists responsible for shaping the way we think about sex crime government and even our very history have been fabricating the facts And yet they have been published praised promoted and protected by a cultural establishment that has its agendas advanced by disinformation half truths and lies As a student of American intellectual history Cashill has come to see that much of what is taught about the last century is not merely biased but knowingly false A Ph D in American studies from Purdue and a former Fulbright professor in France Cashill has taught at several American universities and knows all too well the spin and dissembling of the academic world and public debate In this sensational and essential book Cashill tells the stories behind the fraud and reveals an unsettling pattern of institutional and cultural deception With wide scope and fine point scrutiny Hoodwinked finally and definitively exposes the intellectual elite's trumpery from unwitting self deception to conscious manipulation of data from the merely false to the purely fraudulent and is the perfect antidote for the corrosive disinformation that has poisoned our society culture and understanding of the world at large Norm Chomsky is one of America's best known public intellectuals the nation's self appointed conscience And says Arthur Schlesinger it has long been impossible to believe anything he says The bigger problem is that the same and worse can be said for much of America's cultural elite and Jack Cashill exposes them all The sexual revolution Alfred Kinsey encouraged the sexual torture of small boys Masters and Johnson created an imaginary heterosexual AIDS crisis Planned Parenthood buried Margaret Sanger's plan to sterilize the racially and genetically impure Multiculturalism Mumia is guilty Alex Haley's Roots was almost pure fraud Edward Said grew up a wealthy American not a persecuted Palestinian refugee University of Colorado professor Ward Churchill faked his identity as Native American and much of his scholarship on genocide And Michael Moore He faked just

Tax-funded Politics James T. Bennett, 2017-12-02 The past two decades have seen the growth of well coordinated networks of political activists who have managed to obtain hundreds of millions of taxpayers dollars for political lobbying Although federal regulations prohibit such activities loopholes in the law allow these monies to be masked as private resources State and federal taxpayers monies fund the lobbying efforts of private advocacy groups on both the political left and the right In Tax Funded Politics James Bennett argues that governmental agencies rather than combating these abuses aid and abet them in order to increase their own size and scope Drawing on a broad range of examples Bennett shows how the ideals of the nation's Founding Fathers have been subverted by molding and manipulating the will of the people through government orchestrated propaganda Government agencies far from being indifferent to self aggrandizement and the consolidation of wealth and power are concerned with their own self interest whether it is enhancing their budget or supporting a particular political agenda Likewise nonprofit entities claim to operate solely in the public interest but also engage in political advocacy and lobbying activities But when charities do the lobbying blatant self interest is wrapped in the halo of the public interest Tax Funded Politics exposes dozens of mutually beneficial arrangements between government and charities involving hundreds of millions of dollars It then explores their implications Groups that receive government funds are loath to criticize failed government programs and are advocates for the expansion of the agencies that provide their support Even charities learn not to bite the hand that feeds them Although the vast majority of the funds are directed to nonprofit groups on the left of the political spectrum so called conservative organizations have also sought and received taxpayers funds despite promise to get g
