Christian marriage is a permanent union which requires the commitment of both spouses for its maintenance through fulfillment of its stipulations The failure of the fulfillment of the latter provides legitimate grounds for divorce and remarriage of the innocent party This work employs a fourfold approach for the development of NT ethical argumentation based on Richard B Hays Moral Vision of the New Testament The author establishes the proper contextual grounds for the NT study through formulation of the Old Testament perspective on marriage as covenant The relevant NT passages are examined through historical critical and narrative critical methods A critical study of the main Christian traditions leads to an ecumenical formulation of the theological conclusions Pragmatic implementation of the thesis follows an examination of the contemporary pluralistic context and applications in both Christian communities and the larger society within its legislative system **Vocation and the Politics of Work** Jeffrey Scholes,2013-03-08

Since Martin Luther vocations or callings have had a close relationship with daily work It is a give and take relationship in which the meaning of a vocation typically negotiates with the kinds of work available and vice versa at any given time While vocation language still has currency in Western culture today s predominant meaning of vocation has little to do with the actual work performed on a job Jeffrey Scholes contends that recent theological treatments of the Protestant concept of vocation both academic and popular often unwittingly collude with consumer culture to circulate a concept of vocation that is detached from the material conditions of work The result is a consumer friendly vocation that is rendered impotent to inform and if necessary challenge the political norms of the workplace For example he classifies Rick Warren s concept of purpose in his best selling book The Purpose Driven Life as a functional equivalent of vocation that acts in this way Other popular uses of vocation along with insights culled from traditional theology and consumer culture studies help Scholes reveal the current state of vocations in the West Using recent scholarship in the field of political theology he argues that resisting commodification is a possibility and a prerequisite for a political vocation if it is at all able to engage the norms that regulate and undermine the pursuit of justice in many modern workplaces The Church Leader's Counseling Resource Book Cynthia Franklin Ph.D.,Rowena
