User's Manual to the International Annual Reports Collection ,1989

Adaptronics and Smart Structures Hartmut Janocha,2007-10-10 Adaptronic structures and systems can adapt automatically to variable operating and environmental conditions through the use of feedback control But in contrast to conventional control loops in which each function is fulfilled by a separate component adaptronics is characterized by multifunctional components that are preferably integrated into the structure or the system The goal is a lightweight and

simple construction for conserving material and energy resources The authors of this book have taken on the task of displaying the current state of the art in this highly modern and strongly interdisciplinary field Selected application examples are also presented and current development trends demonstrated **Mechanical Handling International** ,1975
