Ling Shu ,2002-01-01 The Ling Shu considered to be the Canon of Acupuncture is the second part of the Huang Di Nei Jing The Yellow Emperor s Inner Classic These conversations about heaven man and earth and their dynamic relationships are attributed to the Yellow Emperor circa 2600 B C and his ministers The first part is called the Su Wen Simple Questions The second part the Ling Shu is translated here by Wu Jing Nuan in its context as the first known treatise about acupuncture with its associated medical procedures and for its philosophical beauty The title itself expresses a world vision and reality where material and structure are secondary to the living energy of Ling Shu the Spiritual Pivot **Ancient Chinese Medical Texts On Acupuncture For Western Readers** Muhammad Wolfgang G. A. Schmidt,2016-05 The Suwen and the Lingshu form part of the Yellow Emperor s Classic of Internal Medicine with the Nanjing as a separate work complementing this classic These texts are the first known texts on Chinese acupuncture with an age of over 2000 years Regarded as ancient authoritative texts they are still held in high esteem by today s Chinese and Western acupuncturists and are mandatory texts of study in the training of Western and Chinese acupuncture physicians Western readers naturally face tremendous difficulties in accessing these original texts because of the language and cultural gap between their contemporary Western cultural background and ancient Chinese culture This edition of the Chinese texts therefore includes simplified and traditional Chinese character versions of the texts that will enable the reader to study text versions in simplified characters published on the Chinese Mainland as well as those in traditional character versions published outside the Chinese Mainland in Taiwan or Hongkong Complete Latin transcription in Hanyu Pinyin has been added to the Chinese character versions for all the texts so that the reader does not need to spend much time in looking up unknown Chinese characters in the texts A comprehensive Chinese English character and word glossary generated and compiled from the Chinese text corpus in this book is appended at the end of the book for easy reference by Western readers **Acupuncture and Chinese Medicine** Charles Buck,2014-09-21 Drawing on his extensive experience and study in the field Charles Buck presents an authoritative and accessible account of the history of acupuncture and Chinese medicine The book provides an accurate overview focussing on the key developments that are of most practical relevance to clinicians of today **The Luo Collaterals** David Twicken,2015-07-21 The Luo Collaterals are an integral part of the acupuncture channel system and are largely used by modern practitioners to treat the emotions and the organs This book provides a complete exploration of the theories and clinical applications of the Luo Collaterals and the Shen and the five Shen It includes instruction on Healing Sounds Qigong **Huang Di Nei Jing Ling Shu** Paul U. Unschuld,2016-07-19 The Ling Shu also known as the Ling Shu Jing is part of a unique and seminal trilogy of ancient Chinese medicine together with the Su Wen and Nan Jing It constitutes the foundation of a two thousand year healing tradition that remains active to this day Its therapeutic approach is based on a purely secular science of nature with natural laws serving as guidelines for human behavior and medical treatment No other text offers such

broad insights into the thinking and manifest action of the authors of the time Following an introduction this volume contains the full original Chinese text of the Ling Shu an English translation of all eighty one chapters and notes on difficult to grasp passages and possible changes in the text over time on the basis of Chinese primary and secondary literature of the past two thousand years and translator Paul Unschuld's own work The Ling Shu reveals itself as a completely rational work and in many of its statements a surprisingly modern one It will provide the foundation for comparisons with the nearly contemporaneous Corpus Hippocraticum of ancient Europe and today's iterations of traditional Chinese Medicine as well
