the Educational Silos Wiline Pangle, Keeley Stanley-Bohn, Ann Dasen, Jay Batzner, Heather Trommer-Beardslee, 2022-08-22

This collection was written by educators who are engaging in multi and interdisciplinary education and are led by curiosities encompassing the collaborative nature of cognitive and kinesthetic engagement and awareness. The chapters are designed as sources for inspiration, replication and adaptation. They are a place to start or continue. Each chapter in varying modalities addresses interdisciplinary course development and implementation in institutions of higher education. The common themes that emerge in the collection include navigating administrative systems and solving the challenges encountered when crossing departments or colleges whether it be regarding listing of courses or the intricacies of course load on each professor. Many chapters also provide detailed information on the nuts and bolts of the specific course or courses taught including syllabi, lesson examples and both formal and informal assessments implemented. Multiple case studies are included in this collection with many chapters providing specific examples of students' work. Contributors candidly offer discussions of failures and successes of their interdisciplinary collaborations be it in course design, lesson planning or complications brought in by unforeseen pandemics. Most chapters end with a section entitled Lessons learned where experiences from the field provide opportunities for growth and continued exploration. Readers can follow the book from cover to cover or dip in finding the chapters that serve a particular project or teaching endeavour. The varying writing styles and topics are in direct relationship with the exact nature of the inspiration for this text. The over arching themes of collaboration, diverse backgrounds, ideas and skill sets, multidisciplinary and interdisciplinary are the consistent touchstones that create a thematic self guided journey of exploration through the book. The chapters offer readers guidance and encouragement to implement some of the approaches described and inspiration to forge their own paths in the world of multi and interdisciplinary teaching and research. The depth and breadth of collaborative possibilities are exciting and the editors' goal is to spark further experimentation. An excellent and practical resource for any educator hoping to teach his or her subject matter through an interdisciplinary approach and for all courses revolving around topics of pedagogy. The key audience will be graduate students and teachers in all stages of education from primary to higher education. **On Animation** Ron

Diamond, 2019-09-24. Be a fly on the wall as industry leaders Bill Kroyer and Tom Sito take us through insightful face to face interviews revealing in these two volumes the journeys of 23 world class directors as they candidly share their experiences and personal views on the process of making feature animated films. The interviews were produced and edited by Ron Diamond. Your job is not to be the one with the answers. You should be the one that gets the answers. That's your job. You need to make friends and get to know your crew. These folks are your talent, your bag of tricks. And that's where you're going to find answers to the big problems. Andrew Stanton. It's hard. Yet the pain you go through to get what you need for your film enriches you and it enriches the film. Brenda Chapman. Frank and Ollie always used to say that great character animation contains movement that is generated by the character's thought process. It can't be plain movement. John Lasseter. The beauty

of clay is that it doesn't have to be too polished or too smooth and sophisticated. You don't want it to be mechanical and lifeless. Nick Park: The good thing about animation is that tape is very cheap. Let the actor try things. This is where animation gets to play with spontaneity. You want to capture that line as it has never been said before. And most likely if you asked the actor to do it again, he or she just can't repeat that exact performance. But you got it. Ron Clements

Broadway Musicals, 1943-2004 John Stewart, 2012-11-22 On March 31, 1943, the musical *Oklahoma* premiered and the modern era of the Broadway musical was born. Since that time, the theatres of Broadway have staged hundreds of musicals, some more noteworthy than others, but all in their own way, a part of American theatre history. With more than 750 entries, this comprehensive reference work provides information on every musical produced on Broadway since *Oklahoma*'s 1943 debut. Each entry begins with a brief synopsis of the show, followed by a three-part history: first, the pre-Broadway story of the show, including out-of-town try-outs and Broadway previews; next, the Broadway run itself, with dates, theatres, and cast and crew, including replacements, chorus, and understudies; songs, gossip, and notes on reviews and awards; and finally, post-Broadway information with a detailed list of later notable productions, along with important reviews and awards. **Unite!**, 1997

Guernsey Jr., Jeffrey Sweet, 1998-12-01 The yearbook gives listings of casts and technical personnel for on and off Broadway productions, a summary of the season, synopses, and lengthy extracts of dialogue from the best plays, and facts and figures on the New York and regional theater.

Black Diaspora, 1998 **The Best Plays of ...**, 1997 Staging a Comeback Peter C. Kunze, 2023-09-15 In the early 1980s, Walt Disney Productions was struggling, largely bolstered by the success of its theme parks. Within fifteen years, however, it had become one of the most powerful entertainment conglomerates in the world. *Staging a Comeback: Broadway, Hollywood, and the Disney Renaissance* argues that far from an executive feat, this impressive turnaround was accomplished in no small part by the storytellers recruited during this period. Drawing from archival research, interviews, and textual analysis, Peter C. Kunze examines how the hiring of theatrically trained talent into managerial and production positions reorganized the lagging animation division and revitalized its output. By *Aladdin*, it was clear that animation, not live action, was the center of a veritable renaissance at Disney, and the animated musicals driving this revival laid the groundwork for the company's growth into Broadway theatrical production. The Disney Renaissance not only reinvigorated the Walt Disney Company but both reflects and influenced changes in Broadway and Hollywood more broadly. *The Hollywood Reporter*, 2006 **The New Yorker**, 1996 **The Barrack Room. A Musical Burletta in Two Acts** Nathaniel Thomas Haynes BAYLY, 1868 *Theater Law* Robert M. Jarvis, 2004 Although normally thought of in terms of its creative and artistic values

staging a play or musical involves numerous legal relationships and obligations Accordingly this casebook provides the first comprehensive overview of the law governing the theater industry Among the subjects examined are the history of the theater the practice of theater law the creative rights of playwrights the financial rights of producers and investors the employment rights of directors performers and crew members and the attendance rights of audiences While principally concerned with Broadway and Off Broadway productions the final two chapters focus on road tours and amateur theater groups The casebook s 104 principal readings use the battles fought over some of Broadway s biggest shows to spark student interest and promote classroom discussion The line up includes such hits as Annie Bus Stop Cats Guys and Dolls Jekyll Hyde Jesus Christ Superstar Miss Saigon My Fair Lady Rent South Pacific The King and I The Music Man The Phantom of the Opera The Producers The Sound of Music and Urinetown Also taking turns are such notable figures as Jackie Mason Ann Miller Rosie O Donnell Eugene O Neill Lynn Redgrave Neil Simon Cicely Tyson and Tennessee Williams Supplementing the principal readings are 145 notes 28 problems and nine appendices While the notes and problems help students sharpen their grasp of the underlying concepts the appendices reproduce the essential contracts used by theater lawyers Because the chapters have been written in stand alone fashion instructors are able to rearrange them to fit their interests and time requirements Jarvis Chaikelson Corcos Edmonds Garon Ghosh Henslee Kende Palmer Schultz Scordato and White have avoided squib cases used both legal and non legal materials and included numerous references to secondary sources The result is a highly engaging work that supports both survey courses and seminars and fills the gap left by entertainment law casebooks which tend to focus on movies and television At the same time it provides instructors with an opportunity to bolster their students understanding of such fields as anti trust law arbitration contracts First Amendment law labor and employment law professional responsibility and torts A 168 page teacher s manual walks both new and experienced instructors through the materials offering detailed analyses questions to be asked in class and suggestions for field trips outside speakers and extra credit assignments
